Pilgrimage in the Age of Globalisation Nelia Hyndman-Rizk, 2012-04-25 This edited collection brings together a series of ethnographically grounded studies on sacred and secular pilgrimage in the age of globalisation from around the world Pilgrimage is explored as a distinctive form of mobility in late modernity which emphasises inner transformation Thus the studies in this volume show how pilgrimage unifies physical and metaphysical mobility into a holistic project of self realisation through motion

Negotiating Secular and Sacred in Medieval Art Amanda Luyster, 2017-07-05 Offering original analysis of the convergence between sacred and secular in medieval works of art and architecture this collection explores both the usefulness and limitations of these terms for describing medieval attitudes The modern concepts of sacred and secular are shown to be effective as scholarly tools but also to risk imposing false dichotomies The authors consider medieval material culture from a broad perspective addressing works of art and architecture from England to Japan and from the seventh to the fifteenth century Although the essays take a variety of methodological approaches they are unified in their emphasis on the continuing and necessary dialectic between sacred and secular The contributors consciously frame their interpretations in terms and perspectives derived from the Middle Ages thereby demonstrating how the present art historical terminology and conceptual frameworks can obscure the complexity of medieval life and material culture The resonance among essays opens possibilities for productive cross cultural study of an issue that is relevant to a diversity of cultures and sub periods Introducing an innovative approach to the literature of the field this volume complicates and enriches our understanding of social realities across a broad spectrum of medieval worlds
