Teacher Involvement in High-Stakes Language Testing Daniel Xerri, Patricia Vella Briffa, 2018-04-27 This book advocates that teachers should play an active role in high stakes language testing and that more weight should be given to teacher judgement This is likely to increase the formative potential of high stakes tests and provide teachers with a sense of ownership The implication is that the knowledge and skills they develop by being involved in these tests will feed into their own classroom practices The book also considers the arguments against teacher involvement e g the contention that teacher involvement might entrench the practice of teaching to the test or that teachers should not be actively involved in high stakes language testing because their judgement is insufficiently reliable Using contributions from a wide range of international educational contexts the book proposes that a lack of reliability in teacher judgement is best addressed by means of training and not by barring educators from participating in high stakes language testing It also argues that their involvement in testing helps teachers to bolster confidence in their own judgement and develop their assessment literacy Moreover teacher involvement empowers them to play a role in reforming high stakes language testing so that it is more equitable and more likely to enhance classroom practices High stakes language tests that adopt such an inclusive approach facilitate more effective learning on the part of teachers which ultimately benefits all their students

Teacher education for working in linguistically diverse classrooms Anne Reath Warren,Jonas Yassin Iversen,Boglárka Straszer,2025-05-06 This volume presents studies on aspects of teacher education that prepare teachers for working in linguistically diverse classrooms and schools in five Nordic countries Denmark Finland Iceland Norway and Sweden This twin focus teacher education in linguistically diverse contexts and Nordic perspectives makes the volume unique in its field and contributes to international discussions on how teacher education can prepare preservice and in service teachers for working with linguistically diverse student groups The volume includes contributions on Teacher education policies Teacher educators perspectives on teacher education and Pre service teacher perspectives on teacher education The ways in which teacher education prepares educators for working with newcomers and multilingual students has attracted considerable attention in recent years This reflects the increasingly linguistically diverse nature of classrooms that teachers around the world meet that is in turn a direct result of intensified globalisation and transnational migration Clearly teacher education is crucial for successful implementation of educational provisions for multilingual students Teacher knowledge gained partly through teacher education plays a central role in creating educational environments where multilingual students can thrive This volume focuses specifically on teacher education in a Nordic context a region traditionally associated with progressive approaches in education based on principles of inclusivity social justice and equal opportunity In the twenty first century most Nordic countries have experienced increasing levels of migration While neither multilingualism nor transnational migration are new phenomena in the region geographical and social factors as well as the ways humans communicate have helped make multilingualism more visible in the twenty first century Schools in the Nordic countries have had to act quickly and think flexibly to meet the needs of an increasingly linguistically and culturally heterogenous group of students The ability of the Nordic countries to provide these students with inclusive equal education and a fair chance to start a new life constitutes in some ways the ultimate test of the Nordic model of education Investigating how this challenge is addressed in different forms of teacher education is the topic to which this volume turns its attention
