More about Lynx

As Lynx is Windows based, the system is future proofed due to your laptop or Windows tablet hard disk drive which allows for 'many more' numbers of updates compared to hand held devices. Lynx is powered by Omitec who build the T4 - Official Land Rover diagnostics tool. Live data can be displayed using graphics; making it easier to read time based events and the live data can be recorded on the lap top for a comparison, a great advantage over hand held diagnostic tools as they do not usually have storage memory. The Windows based tool allows a simultaneous access to the vehicle diagnostics and consultation of circuit diagrams and other technical information. Allows you to access the internet if you are connected to it whilst diagnosing a vehicle and other such programs you might need to use in a garage environment. Lynx is supplied in a hard wearing carry case with foam insert to protect it when not in use. For the enthusiast home user using Lynx will mean no more trips to your local main dealer to clear any faults on your Land Rover.
