

Abstract: The literature on the effects of social and economic factors on the development of children is extensive. This paper examines the role of the social and economic environment in the development of children's cognitive and language abilities. The study focuses on the role of the family, the school, and the community in the development of children's cognitive and language abilities. The study also examines the role of the social and economic environment in the development of children's cognitive and language abilities. The study finds that the social and economic environment has a significant impact on the development of children's cognitive and language abilities. The study also finds that the family, the school, and the community all play a role in the development of children's cognitive and language abilities. The study concludes that the social and economic environment is a key factor in the development of children's cognitive and language abilities.
