Integrative Systemic Supervision Yaliu He, Nathan Hardy, Adam Fisher, Neil Venketramen, 2025-07-30. This book provides a comprehensive guide to applying Integrative Systemic Therapy (IST) principles in clinical supervision and training. It offers a solution to the challenges therapists face when integrating diverse therapeutic models. In today's clinical practice, training based on single models is insufficient, and many therapists struggle to combine conflicting approaches. This book presents a theory-driven, hands-on method for supervisors to help therapists bridge these gaps and master integrative therapy from a systemic perspective. The first half focuses on IST supervision methods within cultural contexts, while the second half explores the development of both IST supervisors and therapists with practical, real-world supervision examples throughout. Invaluable to supervisors in marriage and family therapy, counseling, clinical psychology, and social work, the book equips readers with essential tools to enhance their supervision practice and expand their expertise in integrative therapy.

Burnes, PhD, Jamila M. Dawson, LMFT, 2023-01-24 An affirming and sex-positive guide to working with sex workers uncovering clinical biases, creating safe spaces, and dismantling the whorearchy. Despite the wide range of sex work from street-based to OnlyFans, clinicians too often focus on what they think sex workers need instead of building trust, developing rapport, and really doing the work to understand the unique stressors that make quality mental health care essential for sex worker communities. Sex-positive therapists Theodore Burnes and Jamila Dawson break down everything that mental health providers need to know to work effectively with sex workers while dispelling the tired, pervasive myths that continue to impact treatment today. Readers will learn about who sex workers are, different types of sex work, and sex workers' specific therapy needs. How outdated research methodology results in bad data and poor care. The whorearchy, the sex work hierarchy, and why we need to dismantle it. How to recognize and move beyond personal biases. How to provide effective affirming and better clinical care. What words not to use and what they reveal about sexism, racism, misogyny, and transphobia embedded in our society and our practices. As sex work changes and evolves encompassing everything from brothels to cam work, clinical care needs to catch up.
