Facts About Rainforest Masks:

Animism in Rainforest and Tundra Marc Brightman, Vanessa Elisa Grotti, Olga Ulturgasheva, 2012-08-15 Amazonia and Siberia classic regions of shamanism have long challenged western understandings of man's place in the world. By exploring the social relations between humans and non-human entities credited with human-like personhood not only animals and plants but also things such as artifacts, trade items or mineral resources from a comparative perspective this volume offers valuable insights into the constitutions of humanity and personhood characteristic of the two areas. The contributors conducted their ethnographic fieldwork among peoples undergoing transformative processes of their lived environments such as the depletion of natural resources and migration to urban centers. They describe here fundamental relational modes that are being tested in the face of change presenting groundbreaking research on personhood and agency in shamanic societies and contributing to our global understanding of social and cultural change and continuity.

Clay Masks Explained Samuel Livingston, AI, 2025-02-28 Clay Masks Explained dives into the science behind clay masks focusing on their impact on skin health and purification. It clarifies that while these masks can offer benefits like sebum control and removing surface impurities the idea of deep skin detoxification is often a marketing exaggeration. The book highlights the absorption and adsorption properties of different clays explaining how they interact with the skin at a biological level. The book explores the mineral content of various clay types and their potential effects on skin distinguishing between benefits and risks. It emphasizes a science-backed approach relying on studies in dermatology and cosmetic chemistry to assess the efficacy of clay masks for various skin conditions. The book examines the impact of clay masks on the skin microbiome and recommends the optimal frequency of use. The book starts with the basics of clay minerals their origins and compositions. It then progresses to discuss properties like absorption, adsorption and ion exchange explaining how these affect sebum control and skin purification. It also addresses the impact of clay masks on the skin microbiome incorporating knowledge from geology, chemistry and biology to provide a complete understanding of clay masks.

A Death in the Rainforest Don

Kulick, 2019-06-18 Perhaps the finest and most profound account of ethnographic fieldwork and discovery that has ever entered the anthropological literature. The Wall Street Journal. If you want to experience a profoundly different culture without the exhausting travel to say nothing of the cost this is an excellent choice. The Washington Post. As a young anthropologist Don Kulick went to the tiny village of Gapun in New Guinea to document the death of the native language Tayap. He arrived knowing that you can't study a language without understanding the daily lives of the people who speak it how they talk to their children how they argue how they gossip how they joke. Over the course of thirty years he returned again and again to document Tayap before it disappeared entirely and he found himself inexorably drawn into their world and implicated in their destiny. Kulick wanted to tell the story of Gapuners one that went beyond the particulars and uses of their language that took full stock of their vanishing culture. This book takes us inside the village as he came to know it.

revealing what it is like to live in a difficult to get to village of two hundred people carved out like a cleft in the middle of a tropical rainforest But *A Death in the Rainforest* is also an illuminating look at the impact of Western culture on the farthest reaches of the globe and the story of why this anthropologist realized finally that he had to give up his study of this language and this village An engaging deeply perceptive and brilliant interrogation of what it means to study a culture *A Death in the Rainforest* takes readers into a world that endures in the face of massive changes one that is on the verge of disappearing forever

Masquerades in African Society Walter E. A. Van Beek, Harrie M. Leyten, 2023 What is the meaning of masks and masquerades in African traditions and how can we understand their role in rituals and performances Why do we find masks in some African regions and not in others and what does this mask habitat say about the general dynamics of masquerades in Africa Though masks are among the most famous art icons of Africa exploration of their uses and the way in which they articulate social characteristics of African societies has been underexamined This book takes an anthropological perspective on the phenomenon of masquerades on the African continent to show how mask rituals are an integral part of African indigenous religions and societies and are informed by and linked to specific types of social and ecological conditions Having established the commonalities of mask rituals and a mask typology the authors look at the varieties of mask performances and the types of rituals in which masks function in rites of passage and in rituals of gender power and identity
