Navigating the Ubiquitous, Misunderstood, and Evolving Role of the Educational Leadership Program Coordinator in Higher Education Noelle A. Paufler, Ellen H. Reames, 2023-11-01 Navigating the Ubiquitous Misunderstood and Evolving Role of the Educational Leadership Program Coordinator in Higher Education is an edited volume of chapters focused on the role of the program coordinator PC in educational leadership The book is a recent addition to the book series Dimensions of Leadership and Institutional Success Exploring Connections and Partnerships edited by Ellen H Reames

Noelle A Paufler and Ellen H Reames editors created this book to examine various aspects of the PC role because it has been largely ignored in the educational leadership preparation literature. The book examines various aspects of the PC role to include responsibilities navigating the politics and policies of higher education and educational agencies internal and external problems and barriers related to the role and recommendations and possibilities for enhancing the PC role. The book is divided into 3 sections. Section 1 centers on the roles of the PC and also includes a model that can be used to structure PC responsibilities within programs. Section 2 focuses the readers attention to present misunderstanding of the PC as a quasiadministrative role which appears to be gaining in clarity through present research. Section 3 gives a glimpse to future trends which includes the growing use of clinical faculty as PCs. The primary audience is higher education faculty and administrators. The term program coordinator spans across all disciplines and is used in most higher education institutions across the United States. Higher education institutions are also interested in sustaining partnerships within the university and the communities beyond. This book can assist with nuances of partnership development for any higher education field of study. The audience also includes faculty in higher educational leadership program development and school university partnership development and enhancement across public and private enterprises who are educating future leaders. Other interested groups are university and school based professionals who are seeking to improve relationships partnerships and collaborations between educational leadership preparation programs and K 12 districts and related agencies. The book would also be of value to those who conduct research in the areas of partnership creation and implementation and to those who conduct research which improves educational leadership preparation and development. The role of the PC in educational leadership is critical to the success of higher education leadership preparation programs and is often very different than PCs in other higher education disciplines.

Neoliberalizing Spaces in the Philippines Arnisson Andre Ortega, 2016-09-09 Amidst the recent global financial crisis and housing busts in various countries the Philippines booming housing industry has been heralded as Southeast Asia's hottest real estate hub and the saving grace of a supposedly resilient Philippine economy. This growth has been fueled by demand from balikbayan returnee Overseas Filipinos and has facilitated the rise of gated suburban communities in Manila's sprawling peri urban fringe. But as the Filipino dreams of successful balikbayans are built inside these new gated residential developments the lives of marginalized populations living in these spaces have been upended and thrown into turmoil as they face threats of expulsion. Based on almost four years of research this book examines the tumultuous geographies of neoliberalization that link suburbanization transnational mobilities and accumulation by dispossession. Through an accounting of real estate and new suburban landscapes it tells of a Filipino transnationalism that engenders a market based and privatized suburban political economy that reworks socio spatial relations and class dynamics.

In presenting the literal and discursive transformations of spaces in Manila's peri urban fringe the book details life inside new gated suburban communities and discusses the everyday geographies of privileged new property owners mainly comprised of balikbayan families and exposes the contradictions of gated suburban life from resistance to Home Owner Association rules to alienating feelings of loss. It also reveals the darker side of the property boom by mapping the volatile spaces of the Philippines surplus populations comprised of the landless farmers informal settler residents and indigenous peoples. To make way for gated communities and other profitable developments in the peri urban region marginalized residents are systematically dispossessed and displaced while concomitantly offered relocation to isolated socialized housing projects the last frontier for real estate accumulation. These compelling accounts illustrate how the territorial embeddedness of neoliberalization in the Philippines entails the consolidation of capital by political economic elites and privatization of residential space for an idealized transnational property clientele. More than ever as the Philippines is being reshaped by diaspora and accumulation by dispossession the contemporary moment is a critical time to reflect on what it truly means to be a nation.
