*An Ambulance on Safari* Melissa Diane Armstrong,2020-10-22 During the apartheid era thousands of South African political activists militants and refugees fled

arrest by crossing into neighbouring southern African countries Although they had escaped political oppression many required medical attention during their period of exile An Ambulance on Safari describes the efforts of the African National Congress ANC to deliver emergency healthcare to South African exiles and in the same stroke to establish political legitimacy and foster anti apartheid sentiment on an international stage Banned in South Africa from 1960 to 1990 the ANC continued its operations underground in anticipation of eventual political victory styling itself as a government in waiting In 1977 it created its own Health Department which it presented as an alternative medical service and the nucleus of a post apartheid healthcare system By publicizing its own democratic policies as well as the racist practices of healthcare delivery in South Africa the Health Department won international attention for its cause and provoked widespread condemnation of the apartheid state While the global campaign was unfolding successfully the department s provision of healthcare on the ground was intermittent as patients confronted a fledgling medical system experiencing various growing pains Still the legacy of the department would be long as many medical professionals who joined the post apartheid Department of Health in South Africa had been trained in exile during the liberation struggle With careful attention to both the international publicity campaign and on the ground medical efforts An Ambulance on Safari reveals the intricate and significant political role of the ANC s Health Department and its influence on the anti apartheid movement *The Highland Furies* Victoria Schofield,2014-12-09 As the oldest of the Highland Regiments The Black Watch has an enviable roster of Battle Honors and a mystique born of repeated service on behalf of King Queen and country On the strength of her acclaimed biography of Field Marshal Earl Wavell the regimental trustees commissioned Victoria Schofield to write this the first volume of her magisterial history of The Black Watch and have fully cooperated with her as she traces the story of the Regiment from its early 18th century beginnings through to the eve of the South African War at the end of the 19th century Originating as companies of highland men raised to keep a watch over the Highlands of Scotland they were formed into a regiment in 1739 Its soldiers would go on to fight with extraordinary bravery and elan in almost every major engagement fought by the British Army during this period from the American War of Independence the Peninsular Wars Waterloo the Crimea Indian Mutiny to Egypt and the Sudan Drawing on diaries letters and memoirs Victoria Schofield skillfully weaves the multiple strands of this story into an epic narrative of a valiant body of officers and men over one and a half centuries In her sure hands the story of The Black Watch is no arid recitation of campaigns dates and battle honors but is instead a rich and compelling record of the soldier s experience under fire and on campaign It is also a celebration of the deeds of a regiment that has played a unique role in British history and a vivid insight into the lives of the many remarkable figures who have marched and fought so proudly under its Colors It is supported by more than 170 pages of appendices bibliography maps and notes as well as a brilliant array of illustrations Military History Monthly *Reversing Urban Inequality in Johannesburg* Melissa Tandiwe Myambo,2018-10-08 With the spread of capitalism a socio economic system that produces both wealth and poverty simultaneously the spatial dynamics of

the globalizing city are creating more division between social classes not less This means that in the 21st century large cities around the world exhibit intensifying spatial inequality taking the form of a wealthy privileged urban core ringed by a periphery of lower income denizens far removed from the city's resources and amenities This trend toward swelling socio-spatial division is especially pronounced in cities purporting to be global or in the case of Johannesburg South Africa's financial capital a world class African city Ironically Johannesburg's historical legacy of immense spatial inequality thanks to apartheid is the direction in which most globalizing cities such as New York Cairo London Shanghai New Delhi Jakarta Lagos Berlin and São Paulo are headed The globalization of neoliberal urban policy has made the city less welcoming liveable accessible and friendly for lower income city residents This book asks if Johannesburg can unstitch its complex urban fabric to create a city with more democratic public transport affordable housing in desirable locations and safe socially and racially integrated public spaces These pithy solidly researched accessibly written essays are instructive for all those who are interested in questions of spatial justice urban development history and planning and the general goal of making cities more livable and accessible for urban dwellers of all income levels

**Mandela's Kinsmen** Timothy Gibbs, 2014

Mandela's Kinsmen is the first study of the fraught relationships between the ANC leadership and their relatives who ruled apartheid's foremost tribal Bantustan the Transkei In the early 20th century the chieftaincies had often been well springs of political leadership In the Transkei political leaders such as Mandela used regionally rooted clan schooling and professional connections to vault to leadership they crafted expansive nationalisms woven from these kin identities But from 1963 the apartheid government turned South Africa's chieftaincies into self governing tribal Bantustans in order to shatter African nationalism While historians often suggest that apartheid changed everything African elites being eclipsed by an era of mass township and trade union protest and the chieftaincies co-opted by the apartheid government there is another side to this story Drawing on newly discovered accounts and archives Gibbs reassesses the Bantustans and the changing politics of chieftaincy showing how local dissent within Transkei connected to wider political movements and ideologies Emphasizing the importance of elite politics he describes how the ANC in exile attempted to re-enter South Africa through the Bantustans drawing on kin networks This failed in KwaZulu but Transkei provided vital support after a coup in 1987 and the alliances forged were important during the apartheid endgame Finally in counterpoint to Africanist debates that focus on how South African insurgencies narrowed nationalist thought and practice he maintains ANC leaders calmed South Africa's conflicts of the early 1990s by espousing an inclusive nationalism that incorporated local identities and that Mandela's kinsmen still play a key role in state politics today Timothy Gibbs is a Lecturer in African History University College London Southern Africa South Africa Namibia Lesotho Swaziland Botswana Jacana
