Flashpoint Derek Charles Catsam, 2021-08-28 Forty years ago a South African rugby tour in the United States became a crucial turning point for the nation s burgeoning protests against apartheid and a test of American foreign policy In Flashpoint How a Little Known Sporting Event Fueled America s Anti Apartheid Movement Derek Charles Catsam tells the fascinating story of the Springbok s 1981 US tour and its impact on the country s anti apartheid struggle The US lagged well behind the rest of the Western world when it came to addressing the vexing question of South Africa s racial policies but the rugby tour changed all that Those who had been a part of the country

s tiny anti apartheid struggle for decades used the visit from one of white South Africa s most cherished institutions to mobilize against both apartheid sport and the South African regime more broadly Protestors met the South African team at airports chanted outside their hotels and courted arrests at matches which ranged from the bizarre to the laughable with organizers going to incredible lengths to keep their locations secret In telling the story of how a sport little appreciated in the United States nonetheless became ground zero for the nation s growing anti apartheid movement Flashpoint serves as a poignant reminder that sports and politics have always been closely intertwined

Guerrilla Radios in Southern Africa Sekibakiba Peter

Lekgoathi, Tshepo Moloi, Alda Romão Saúde Saíde, 2020-11-03 *Guerrilla Radios in Southern Africa* is a collection of essays on the histories of the different radios of the liberation movements in the region during the era of the armed struggle. From Angola and Mozambique to Namibia, Zimbabwe and South Africa, the new technology of radio provided the liberation movements in exile with a platform to address their followers at home, to propagate their ideologies and to counter the propaganda of the oppressive white minority regimes. As the cheapest and most direct medium, guerrilla radios transcended the boundaries imposed by the settler regimes and were widely listened to, albeit within the realm of illegality. Transnational in its approach, the book explores the workings of these radios from their areas of broadcast in exile, international solidarity to reception at home, where listeners often huddled around their receivers to listen to the messages from the liberation movements, often beyond the gaze of the state. These radios shaped the nature of resistance campaigns that the liberation movements embarked upon in the various countries in the region. *Taking Care of the Future* Oliver Pattenden, 2018-03-06

Taking Care of the Future examines the moral dimensions and transformative capacities of education and humanitarianism through an intimate portrayal of learners, volunteers, donors and educators at a special needs school in South Africa and a partnering UK-based charity. Drawing on his professional experience of inclusive education in London, Oliver Pattenden investigates how systems of schooling regularly exclude and mishandle marginalized populations, particularly exploring how street kids and poverty-afflicted young South Africans experience these dynamics as they attempt to fashion their futures. By unpacking the ethical terrains of fundraising, voluntourism, Christian benevolence, human rights, colonial legacies and the post-apartheid transition, Pattenden analyzes how political, economic and social aspects of intervention materialize to transform the lives of all those involved. **Student Movements in Late Neoliberalism** Lorenzo Cini, Donatella della Porta, César

Guzmán-Concha, 2021-08-22 This book inquires into the global wave of student mobilizations that have arisen in the aftermath of the economic crisis of 2008, accounting for their historical and sociological significance. More specifically, its eleven chapters explore the role of students as political actors, their ability to build effective organizations to make political alliances with other actors and to win public consensus, as well as their impact on cultural, political and policy outcomes. To do so, the volume examines case studies in England, Chile, South Africa, Quebec and Hong Kong, covering Europe, Africa, Asia and North and Latin America. Grouped into two major sections, the collection covers the organizational structures of student movements and their alliances and outcomes. Ultimately, this volume examines the understudied political aspects of student unrest, exploring how student mobilizations driven by indebtedness, precariousness, the corporatization of the university and other issues correspond to larger processes of change with wider implications in society. *Against All Odds* Dr. Simon
