Legitimacy and Criminal Justice Tom R. Tyler, 2007-10-25 The police and the courts depend on the cooperation of communities to keep order But large numbers of urban poor distrust law enforcement officials Legitimacy and Criminal Justice explores the reasons that legal authorities are or are not seen as legitimate and trustworthy by many citizens Legitimacy and Criminal Justice is the first study of the perceived legitimacy of legal institutions outside the U S The authors investigate relations between courts the police and communities in the U K Western Europe South Africa Slovenia South America and Mexico demonstrating the importance of social context in shaping those relations Gorazd Meško and Goran Klemencic examine Slovenia's adoption of Western style community policing during its transition to democracy In the context of Slovenia's recent Communist past when community policing entailed omnipresent social and political control citizens regarded these efforts with great suspicion and offered little cooperation to the police When states fail to control crime informal methods of law can gain legitimacy Jennifer Johnson discusses an extra legal policing system carried out by farmers in Guerrero Mexico complete with sentencing guidelines and initiatives to reintegrate offenders into the community Feeling that federal authorities were not prosecuting the crimes that plagued their province the citizens of Guerrero strongly supported this extra legal arrangement and engaged in massive protests when the central government tried to suppress it Several of the authors examine how the perceived legitimacy of the police and courts varies across social groups Graziella Da Silva Ignacio Cano and Hugo Frhling show that attitudes toward the police vary greatly across social classes in harshly unequal societies like Brazil and Chile And many of the authors find that ethnic minorities often display greater distrust toward the police and perceive themselves to be targets of police discrimination Indeed Hans Jürg Albrecht finds evidence of bias in arrests of the foreign born in Germany which has fueled discontent among Berlin's Turkish youth Sophie Body Gendrot points out that mutual hostility between police and minority communities can lead to large scale violence as the Parisian banlieu riots underscored The case studies presented in this important new book show that fostering cooperation between law enforcement and communities requires the former to pay careful attention to the needs and attitudes of the latter Forging a new field of comparative research Legitimacy and Criminal Justice brings to light many of the reasons the law's representatives succeed or fail in winning citizens hearts and minds A Volume in the Russell Sage Foundation Series on Trust

The map of Gauteng: evolution of a city-region in concept and plan Allan Mabin, 2013-07-26 The mission of the Gauteng City Region Observatory GCRO is to help illuminate trends and dynamics shaping the region of towns and cities in and around Gauteng and also enhance understanding of the idea of the Gauteng City Region GCR as a project a different way of thinking about and governing this space While much of the data collection and analysis work of the GCRO is focused on the present we also consider the city region's past and its possible futures A 2030 National Development Plan crafted by the National Planning Commission has recently been adopted In addition the Gauteng Provincial Government working with

municipal partners and business civil society and labour stakeholders is drafting a G2055 long term development plan As our society looks forward to what sort of country and region we need to become it is also important to look backward Understanding the past gives us insights into how we have come to be where we are now and so in turn what paths we should tread into the future This Occasional Paper is one of two that GCRO has commissioned specifically to deepen our understanding of the past of the GCR Both focus on aspects of the region s spatial past and ought to be read together This paper by Alan Mabin explores how the idea of a city region found expression in various statutory planning frameworks over the course of the last century and how embryonic cityregion concepts influenced spatial decisions and developments The companion paper by Brian Mubiwa and Harold Annegarn considers the different but related issue of the actual historical spatial evolution of the GCR It examines key spatial changes that have shaped the region over a century and provides a remarkable picture based on satellite imagery of regional spatial growth in the last two decades *Conflict and Governance* Susan Brown,2005 The Authors interrogate the manner in which South Africas changing economy is re shaping the political and the social landscape Based on in depth analysis of the data suggestions are made for future policy development

Padayachee, 2021-06-29 Apartheid South Africa was often thought to run in the interests of the business elite Yet 27 years after apartheid those business interests remain largely entrenched Why Did the South African business community play a role in engineering this outcome perhaps recognising the apartheid era was over and jumping ship in time Conversely the mission of the ANC was widely perceived to be to shift wealth and power into the hands of the whole community Yet despite black empowerment measures corporate ownership remains largely in white hands and certainly in the hands of an elite few even though no longer restricted to whites This picture is replicated across the global south where corporate ownership tends to be concentrated in the hands of an elite rather than being more democratically spread Why have alternative corporate forms not been pursued more vigorously with ownership in the hands of customers employees and local communities In the case of South Africa where the majority of customers and employees are black this could have delivered on the ANC's mission to replace the apartheid era with a democratic one in terms of wealth incomes and power as well as in terms of voting and civic rights This edited volume explores all these questions and looks at ways to align corporate forms with economic and social goals The chapters in this book were originally published as special issues of International Review of Applied Economics
