Gcse Psychology Aqa 2013 Past Papers:

Bringing the English Curriculum to Life David Didau, 2024-04-12 *Bringing the English Curriculum to Life* builds on David Didau's groundbreaking book *Making Meaning in English* by showing how the principles of the original book can be applied in schools and classrooms. Drawing together experiences of designing, teaching, supporting and assessing English across the schools within Ormiston Academies Trust OAT, this book demonstrates what an ambitious, coherently sequenced, broad and balanced English curriculum with successful adaptation for students with SEND can look like in practice. Designed around the explicit teaching of the powerful conceptual knowledge students need to master the discipline, the book offers a fully resourced English curriculum packed with teaching suggestions and examples of high quality practice. Covering intent, implementation and assessment, and outlining in detail what is included in each module for KS3 and 4, the curriculum can be adopted in its entirety but is also flexible enough for departments to take modules and slot them into their own curriculum. Providing an inspiring model for teaching English that enables all students to succeed, this is an essential resource for all English teachers and school leaders responsible for curriculum development. **Secondary Maths in Action** Emma McCrea, 2025-07-11 In *Secondary Maths in Action*, experienced curriculum expert and maths teacher Emma McCrea offers insights into the complex task of teaching maths. Taking an evidence-informed stance, Emma first explores the age-old question of why we study maths and the important role it plays in our lives and in society. Next, she examines several pertinent debates in maths: those of pupil grouping, mastery and gender. Finally, we are taken on a grand tour of curriculum, pedagogy and assessment as the fundamental pillars of great teaching. Additionally, the book includes four rich case studies revisited throughout the curriculum, pedagogy and assessment chapters, which help to showcase how these ideas can be applied in various contexts so you can really see what it all looks like. **In Action** *Understanding and Applying Assessment in Education* Damian Murchan, Gerry Shiel, 2017-04-29 All teachers are responsible for assessing the children they teach and the outcomes of any assessment are important for individual learners and the wider school. This book is your one-stop shop for understanding assessment in schools. It covers formative and summative approaches used across primary and secondary education, supporting a balanced overview with policy examples drawn from the UK, Ireland and wider international contexts. Designed as a pragmatic handbook for new teachers and those training to teach, the book discusses key principles of assessment before providing guidance on developing and carrying out assessment in the classroom and looking at how assessment information can be used to benefit your teaching and the children you teach. **Examination Results** Michael Matthewman, 2013-06-17 At the beginning of each academic year, schools are required to present their examination results to an audience of teaching staff, governors and parents. This A4 booklet and disc provides clear guidance to examinations officers on how to process, analyse and record these results. The pack is specifically designed to enable the examinations officer to process the results on a PC off-site and encourages a cumulative approach to examination results in addition to the
