*Encyclopedia of Nineteenth-Century Photography* John Hannavy, 2013-12-16 The Encyclopedia of Nineteenth Century

Photography is the first comprehensive encyclopedia of world photography up to the beginning of the twentieth century. It sets out to be the standard definitive reference work on the subject for years to come. Its coverage is global, an important first in that authorities from all over the world have contributed their expertise and scholarship towards making this a truly comprehensive publication. The Encyclopedia presents new and ground breaking research alongside accounts of the major established figures in the nineteenth century arena. Coverage includes all the key people, processes, equipment, movements, styles, debates, and groupings which helped photography develop from being a solution in search of a problem when first invented to the essential communication tool, creative medium, and recorder of everyday life which it had become by the dawn of the twentieth century. The sheer breadth of coverage in the 1200 essays makes the Encyclopedia of Nineteenth Century Photography an essential reference source for academics, students, researchers, and libraries worldwide. Howell Jr., 2003-11-14 Leadership is a subject that has gained impressive visibility in the past two decades. The number of books, monographs, and articles, as well as seminars devoted to the development of one's leadership skills, has been almost exponential growth. This study is an attempt to forge a full-orbed theology of Christian leadership grounded in the teaching of Scripture. What emerges from tracing the theme of leadership through the biblical record is a servanthood pattern, one that is wholly distinct from prevailing secular models. Our exposition begins with the biblical language of the servant, the term of choice for those great leaders used of God to further his saving purposes in the world. Eleven Old Testament and five New Testament leaders are profiled. The portrait of Jesus Christ focuses on three motifs that governed his training of the twelve for kingdom ministry. The Pauline letters are mined for those convictions that governed Paul's practice of leadership, both of his mission team and of the faith communities that emerged from that mission. The treatment of each leader, from Joseph to Paul, begins with a series of preliminary questions and concludes with a mini-profile that correlates the biblical data with these questions. The final chapter offers a summary profile of the servant leader, one whose character, motives, and agenda align with the divine purposes. Though designed as a textbook for upper-level college and seminary courses on leadership, the book's readable format is ideal for churches and parachurch organizations in their leadership training programs. The author's prayer is that this work will serve as a catalyst to call God's people back to Scripture and thereby raise up a whole new generation of authentic servant leaders.
