The Upside Down Tree Richard D. Connerney, 2009 India's future will be determined not only by economic development but also by a dynamic traditional culture that continues to develop along its own lines sometimes in concert and sometimes in conflict with material enrichment India develops not as one writer has suggested in spite of the gods Rather the seed for the creation and the fuel for the sustenance of India's economic boom lay in its traditions and I will argue the animating spirit of its future lies there as well I have neither the expertise nor the access to operate as a political correspondent nor the desire to posture as a political pundit During eighteen years of research however I have seen what I perceived as a pervasive misrepresentation of recent developments in Indian politics More specifically a number of recent books consistently paint the Hindu right wing in India as essentially fascist or theocratic My observations show that these claims are untenable and misrepresent a positive development in the history of Indian democracy To think clearly about the changes in today's India we require a new model the bi-directional banyan tree a symbol borrowed ironically from ancient Sanskrit verses Pindar claimed Custom is King of all and this serves as a succinct expression of the central thesis of this book Publisher's website

Toolkits, Translation Devices and Conceptual Accounts Parlo Singh, Alan R. Sadovnik, Susan F. Semel, 2010 For over four decades Basil Bernstein researched the internal organisation and educational context of the school specifically and educational systems generally In particular he was interested in the powerful forms of knowledge transmitted through schooling systems who gained access to these forms of knowledge how they did so and with what consequences His research began by examining the differences between language and communication patterns in the institutions of the home family and of the school and extended to examining the structuring of pedagogic discourse from the level of the state to the classroom This collection brings together chapters by researchers from South Africa Portugal the United Kingdom United States and Australia to build on the theoretical concepts developed by Bernstein to explore issues of access and acquisition to school knowledge In addition contributors explore the strengths and limitations of Bernstein's work for understanding the structuring of educational institutions as well as the potential of the theory for assisting educators to make a difference in the lives of students

Anthologizing Poe Emron Esplin, Margarida Vale de Gato, 2020-08-06 This collection explores how anthologizers and editors of Edgar Allan Poe play an integral role in shaping our conceptions of Poe as the author we have come to recognize revere and critique today In the spheres of literature and popular culture Poe wields more global influence than any other U.S. author This influence however cannot be attributed solely to the quality of Poe's texts or to his compellingly tragic biography Rather his continued prominence as a writer owes much to the ways that Poe has been interpreted portrayed and packaged by an extensive group of mediators ranging from anthologizers editors translators and fellow writers to literary critics filmmakers musicians and illustrators In this volume the work of presenting Poe's texts for public consumption becomes a fascinating object of study in its own right one that highlights the powerful and often

overlooked influence of those who have edited anthologized translated and adapted the author's writing over the past 170 years

Swarm of Five Francis DiPietro, 2006-08 Stories in Swarm of Five stand in complimentary contrast to one another united by an arc of succulent imagery and memorable characters From the wild chaotic wry and politically apocalyptic overtones of Beat Me Sweetly Heavy Jesus to the subtle complexities of retelling the life of an unknown hero in Legacy of a Teacher DiPietro strives to capture a diverse sampling from the borderlands of storytelling The pseudo autobiographical parody of Groveling Music The Soundtrack to My Remarried Life presents the most engaging glimpse yet into the mind of this longtime author and veteran of the final age of pulp magazines with DiPietro escaping to a park in Texas for six days while his new wife half his age goes to a resort spa to pamper herself at his expense Insecurities and bawdy reminiscences abound as DiPietro aging and rueful of his diminishing sexual prowess travels the lonely spaces of America in deep thought and strange mood Shorter works of The Dojo Demon and When Pickpockets Collide are experimental and wide ranging psychological fantasies which explore the oft dirty and unenviable depths of human machination Swarm of Five accomplishes the difficult task of offering engaging tales in a spectrum of tastes and textures
