Beyond Child's Play Sally Edward, 2017-07-05 Sustainable product design is more than eco design it goes beyond green to consider the work environment community impacts consumer health and economic viability as well as environmental attributes Beyond Child's Play explores the concept of sustainable product design in the context of the global doll making industry To initiate this research the author reviewed eco design parameters and developed criteria for sustainable product design in the doll making industry Using this framework she conducted three case studies of the American Girl doll produced in China the Kathe Kruse doll produced in Germany and the Q'eqwa Project doll produced in Peru Themes emerged from this research that have relevance beyond the doll making industry the value of making a product with care designing work for human dignity intention and vision for sustainability the implications of materials choices and transparency and sustainability Sustainable product design calls for fundamentally new thinking By connecting the term sustainable to product we raise expectations for a radically different approach to design production and consumption This framework integrates the eco design principles of detoxification and dematerialization with the principle of humanization to ensure that the work environment where the product is made is safe and healthy and that local communities benefit from production This approach places increased responsibility on the industrial designer and decision makers throughout the supply chain including governments corporations and citizens Sustainable product design can be implemented effectively only when

systems are in place that support sustainable production and consumption
