Shedd, 1998-10-27      **History of Christian Doctrine** Henry Clay Sheldon, 1886      **Early Christian Doctrines** J. N. D. Kelly, 2000-11-20 A history of doctrines of the early Church written and arranged with exceptional clarity by a leading patristic scholar the principal of St Edmund Hall Oxford Canon Kelly describes the development of the principal Christian doctrines from the close of the first century to the middle of the fifth and from the end of the apostolic age to the council of Chalcedon His book thus covers the great doctrinally creative period in the Church's history the centuries in which there was a constant upsurge of fresh ideas before the settled formalism of both the East and West He gives the student and invaluable outline of Church history and patrology against which to place the evolving theological doctrines which he summarises and expounds Back cover      *The History of Christian Doctrines* Louis Berkhof, 1937      A History of Christian Doctrine William Greenough Thayer Shedd, 1883      **A History of Christian Doctrine** William Greenough Thayer Shedd, 1909      **A Short History of Christian Doctrine** Bernhard Lohse, 1978      *A History of Christian Doctrine* William G. Bethune Baker, 1958      **History of Christian Doctrine** George Park Fisher, 2015-06-26 Excerpt from History of Christian Doctrine Several years have elapsed since I engaged to prepare this work The unexpected delay in its publication is owing chiefly to the pressure of other and more imperative engagements One reason for it however is the fact that although the subject is one which I had long studied and on which I had given instruction to many successive classes more time was required for the composition of the book than I had anticipated This is partly for the reason that it appeared to me for the present purpose expedient to abandon for the most part the method which I had always followed in my Lectures of arranging the matter under the heads of General and Special Doctrinal History On this topic something more is said in the

introductory chapter This change of plan has involved an entire recasting of the materials to be incorporated into this volume A number of the ablest of the recent German writers on Dogmengeschichte confine themselves to a description of the rise and establishment of dogmas in the official significance of the term according to which it denotes simply the accredited tenets of the principal divisions of the Church The terminus of this branch of study is therefore set not later than about the opening of the seventeenth century In the present work the history of theological thought is carried forward through the subsequent essays at doctrinal construction down to the present time In other words the present work is a history of Doctrine as well as of Dogmas About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

**An Introduction to the Early History of Christian Doctrine** J. F. Bethune-Baker, 2015-07-07 Excerpt from An Introduction to the Early History of Christian Doctrine To the Time of the Council of Chalcedon In the preparation of this volume the writer has been guided by the general purpose of the Series of Theological Handbooks of which it is a part A continuous narrative is given in the text with as much freedom from technical treatment as the subject allows details and authorities are relegated to footnotes and some special questions and difficulties are dealt with in notes appended to the several chapters The chief aim which has been kept in view throughout has been to offer to the student of the history of Christian Doctrine during the first four centuries of the life of the Church such information with regard to the facts and the sources as will enable him to prosecute his study for himself It is only a limited period with which the book deals but a period in which the Christian theory of life of the relations between God the World and Man was worked out in its chief aspects and all the doctrines to which the Church of Christ as a whole is pledged were framed The authority of these doctrines is only to be understood by study of their history Their permanent value can only be appreciated by knowledge of the circumstances in which they came to be expressed knowledge which must certainly precede any restatement of the doctrines such as is from time to time demanded in the interests of a growing or a wider faith That Christian thinkers have been guided at various times in later ages towards fuller apprehension of various aspects of human life and fuller knowledge of the divine economy must be thankfully acknowledged About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections
