Innovation in China William H.A. Johnson,2015-07-22 The word innovation is often used today regarding China as if the concept were new to the Eastern country Most people know however that China was a juggernaut in creating new

technologies and at one time was the innovation king of the world but that was at least seven centuries ago Today the great oriental power is attempting once again to take the throne of innovation for its own This desire to usurp the throne which had been diligently taken by the West during the Scientific Revolution has placed an almost unrealistic emphasis on innovation In Innovation in China The Tail of the Dragon the author explores the issues and actors involved in making innovation the emphasis in China He uses a simple systems model of innovation and various perceptual lenses The lenses are aimed at the historical economic political legal educational and cultural elements of an innovation based society After reading the book the reader will understand more about how innovation is happening in China and by whom More importantly the reader will begin a journey of learning more about where the country is going as it relentlessly continues its drive to create an innovation based society and to become once again in terms appropriate to its history the Emperor of Innovation
