Polonetsky,Omer Tene,2018-04-02 Businesses are rushing to collect personal data to fuel surging demand Data enthusiasts
claim personal information that s obtained from the commercial internet including mobile platforms social networks cloud
computing and connected devices will unlock path breaking innovation including advanced data security By contrast
regulators and activists contend that corporate data practices too often disempower consumers by creating privacy harms
and related problems As the Internet of Things matures and facial recognition predictive analytics big data and wearable
tracking grow in power scale and scope a controversial ecosystem will exacerbate the acrimony over commercial data
capture and analysis The only productive way forward is to get a grip on the key problems right now and change the
conversation That s exactly what Jules Polonetsky Omer Tene and Evan Selinger do They bring together diverse views from
leading academics business leaders and policymakers to discuss the opportunities and challenges of the new data economy
