People and Place Lewis Holloway, Phil Hubbard, 2014-01-14 An innovative introduction to Human Geography exploring different ways of studying the relationships between people and place and putting people at the centre of human geography The book covers behavioural humanistic and cultural traditions showing how these can lead to a nuanced understanding of how we relate to our surroundings on a day to day basis The authors also explore how human geography is currently influenced by postmodern ideas stressing difference and diversity While taking the importance of these different approaches seriously as ways of thinking about the role of place in peoples everyday lives the book also tries to encapsulate what has been so vibrant and exciting about human geography over the last couple of decades By using examples to which students can relate such as how they imagine and represent their home the way they avoid certain spaces how they move through retail spaces where they choose to go to university how they use the Internet how they represent other nations and so on the authors show how geography shapes everyday life in a manner that is seemingly mundane yet profoundly important

History through material culture Leonie Hannan, Sarah Longair, 2017-04-20 History through material culture is a unique step by step guide for students and researchers who wish to use objects as historical sources Responding to the significant scholarly interest in historical material culture studies this book makes clear how students and researchers ready to use these rich material sources can make important valuable and original contributions to history Written by two experienced museum practitioners and historians the book recognises the theoretical and practical challenges of this approach and offers clear advice on methods to get the best out of material culture research With a focus on the early modern and modern periods this volume draws on examples from across the world

and demonstrates how to use material culture to answer a range of enquiries including social economic gender cultural and global history Geography Regions and Concepts, Study Guide Harm J. de Blij, Peter O. Muller, 1991-01-18 This solid introduction provides an overview of world regional geography and is strongly grounded in spatial concepts and linked to basic systematic geography Organized according to developed and less developed regions it covers the human and physical foundations of world geography Europe the Soviet Union North America Australia Japan Middle and South America Africa Southwest Asia South Asia China and Southeast Asia As with previous editions the Sixth Edition features outstanding illustrative material and a full color cartographic program but also incorporates four major chapter revisions substantial updating and new chapter on opening maps Among the major topics covered are regional concepts and classification culture and landscape and physical environmental dimensions Specifics for each region are also discussed such as changing natural environment history settlement population politics economics and their impact industrialization and urbanization environmental hazards and much more
