Dr V Dheenadhayalan Effective AI, Blockchain, and E-Governance Applications for Knowledge Discovery and Management Kumar, Rajeev, Abdul Hamid, Abu Bakar, Binti Ya'akub, Noor Inayah, 2023-09-25. Emerging technologies have become both crucibles and showrooms for the practical application of artificial intelligence, the internet of things and cloud computing and for integrating big data into everyday life. Is the digital world optimized and sustainable using intelligence systems, machine learning and cyber security methods? This complex concoction of challenges requires new thinking of the synergistic utilization of intelligence systems, machine learning, deep learning and blockchain methods, data driven decision making with automation, infrastructure, autonomous transportation and connected buildings. Effective AI, Blockchain and E Governance Applications for Knowledge Discovery and Management provides a global perspective on current and future trends concerning the integration of intelligent systems with cybersecurity applications including recent advances and challenges related to the concerns of security and privacy issues in deep learning with an emphasis on the current state of the art methods, methodologies and implementation, attacks and countermeasures. The book also discusses the challenges that need to be addressed for implementing DL based security mechanisms that should have the capability of collecting or distributing data across several applications. Topics covered include skill development and tools for intelligence systems, deep learning, machine learning, blockchain, IoT, cloud computing, data ethics and infrastructure. It is ideal for independent researchers, research scholars, scientists, libraries, industry experts, academic students, business associations, communication and marketing agencies, entrepreneurs and all potential audiences with a specific interest in these topics.
