Neoliberalism and Young Adult Fiction Sean P. Connors, Roberta Seelinger Trites, 2025-03-17 In the twenty first century the influence of neoliberalism the belief that society benefits when both

individuals and corporations are free to maximize their talents in the service of responding to social needs and problems resonates through all domains of human life And yet little critical study has been given to the reproduction of a neoliberal social order in YA literature Neoliberalism and Young Adult Fiction Exceptionalism Exploitation and Erasure examines how some YA literature naturalizes neoliberalism in positioning teenagers as self enclosed competitive individuals At the same time however the authors also examine other YA novels as potential sites of resistance that acknowledge teenagers agency to reject neoliberalism s destructive impulses and to work for social justice and equality through collective action With that in mind the authors of Neoliberalism and Young Adult Fiction analyze such concepts as how the exceptionality of specific characters who embody neoliberal ideals leads to self enclosed individualism and how environmental exploitation and consumerism lead to destructive effects The book progresses to an in depth examination of how racism undergirds US neoliberalism and environmental exploitation From scrutinizing racism and the rejection of neoliberalism inherent in the antiracism movement the study turns to an examination of gender specifically focusing on the relationship between sexism exploitation and embodied rejections of patriarchal thinking Indeed erasure is implicated in racism sexism and all forms of discrimination that are borne of exploitation Finally youth activism with its rejection of neoliberal ideologies leads to a culminating chapter about how global youth link YA literature to their protest movements

**Storytelling in a Culturally Responsive Classroom** Laura A. Mitchell, 2018-11-02 The authentic storytelling process gives students the opportunity to include their heritage language and culture into the learning process at school Often students separate their heritage language and culture from the school culture They do this in order to survive the complexity of living in dual worlds or perspectives Belenky et al 1986 When teachers integrate the heritage language such as storytelling into the authentic literacy processes students find that their heritage language and culture has value They discover that their teachers encourage the traditional storytelling of their own heritage stories in the classrooms among their classmates This brings the dual perspective of living in two distinct worlds together The culturally responsive teachers help to merge both the home and school culture together through authentic literacy This book describes how culturally responsive teachers learn to navigate between the heritage languages of their students and the dominant language of their curriculum and instruction They know to ask questions such as Who are the storytellers in your home and what stories do they tell you This form of questioning opens up the thinking process that shows literacy comes in more forms and processes than just a book As culturally responsive teachers invite different forms of literacy to be shared in the classroom they bring the authentic lives of storytellers into their classroom The students can retell the stories that they were told by their storytellers Through this storytelling process both the culturally responsive teachers and the students inform them about who they are how they are connect with others and how they interdependent on others Students tell stories that inform them about who they are and how they are connected with others so they will know that they are human They can live in a world of possibilities where they

are interconnected with literacy and interdependent with each other in order to be human They are describing what Greene 1995 described as looking into each other's eyes in order to encourage them to tell their stories about who they are and who they hope to be
