French Destroyers John Jordan,Jean Moulin,2015-06-22 A superb book that will keep any reader happy for months as they discover stories and episodes in French naval destroyer design and history Warship World Between the wars the French produced some of the largest and certainly the fastest destroyers in the world Known as Contre Torpilleurs these striking and innovatory super destroyers form the core of this book but the more conventional Torpilleurs d Escadre are also covered This history combines the technical and service material published in French language monographs over the past two decades with the authors own research from primary sources The structure of the book follows that of the highly successful French Cruisers with Part I devoted to the design of each of the classes built after 1922 The text is accompanied by detailed data tables and illustrated by a comprehensive set of specially drawn plans and schemas based on official documents as well as carefully selected photographs from French naval sources and from private collections Coverage runs down to the Le Hardi class the last pre war design Part II deals with the historical side covering the eventful careers of these ships before during and after the war This section is illustrated by maps specially drawn for the book and by contemporary photographs Like its highly successful predecessors French Battleships and French Cruisers this beautifully presented book fills a significant gap in the English library about French warships Apart from that the book will absolutely be a treasure on the bookshelves of collectors historians ships modelers and all other devotees of maritime history Go2War2 nl **EPA Publications Bibliography** United States. Gunboats of World War I Angus Konstam,2015-04-20 Naval action in World War I conjures up images of enormous dreadnoughts slugging it out in vast oceans Yet the truth is that more sailors were killed serving on gunboats and monitors operating far from the naval epicentre of the war than were ever killed at Jutland Gunboat engagements during

this war were bloody and hard fought if small in scale Austrian gunboats on the Danube fired the first shots of the war whilst German British and Belgian gunboats fought one of the strangest most intriguing naval campaigns in history in far flung Lake Tanganyika From the Mediterranean to the Black Sea from the Balkans to Mesopotamia gunboats played an influential part in the story of World War I This detailed technical guide to the gunboats of all the major navies of the war means that for the first time the story can be told

The Royal Navy at Dunkirk Martin Mace, 2017-03-30 The fact that the British Expeditionary Force was evacuated from Dunkirk in May June 1940 has achieved the status of a legend Whilst the part played by the Little Ships in that miracle is equally well known the role of the Royal Navys warships the destroyers minesweepers and personnel ships is often overlooked Indeed more than 300 000 troops out of a total of 338 226 were evacuated from the harbour at Dunkirk in these vessels In the weeks after Operation Dynamo the Admiralty issued an order requiring the Commanding Officers of those British warships involved to submit a report detailing their actions Described in their own words with the events still fresh in their minds the result is a vivid record of the chaos improvisation skill and bravery that all combined to rescue the basis of an army that helped carry Britain through the dark months and years that followed It is a record that forms the basis of this book
