Runways & Racers Terry O'Neil, 2011 Runways and Racers focuses on sports car races held at military installations throughout America in the early 1950s. It was a marriage of convenience for the Sports Car Club of America and the Strategic Air Command with both parties gaining advantages from the arrangement. The thorn in the side turned out to be a Congressman whose own aspirations exceeded his standing but who found himself in a position to be able to influence the outcome of events.

Classic Jaguar XK Brian Laban, 2016-08-31 There have been other generations of Jaguar XK since but the definitive incarnation is the family of 6 cylinder sports cars that stretch from the late 1940s to the mid 1970s from XK120 to the E Type. On road, on track and on rally stage they built the foundations of Jaguar's sporty image and giant killing reputation, not to mention its commercial roots especially in America. By any definition the 6 cylinder XKs are at the heart of everything that Jaguar grew into. This is the complete story of the whole 6 cylinder XK generation, the circumstances, the people and the events that created it and made it a sports car legend and guaranteed that forever after in Jaguar's vocabulary XK would always mean sports car.

Northeast American Sports Car Races 1950-1959 Terry O'Neil, 2010 This book focuses on the different aspects that contributed to the development of Northeast American sports car racing during the 1950s. The evolution from amateur drivers racing on public roads in 1950 to both professional and amateur drivers racing at private purpose built tracks in 1959 demanded huge leaps of faith, trust and understanding. The transition was neither easy nor uneventful for drivers, clubs or track owners and the tragedy, politics and in.

It logs the financial and personal cost of racing in the prewar and postwar periods. Vincent Motorcycles Philippe Guyony, Very few motorcycles have carved a mark in history like the Vincent V twin. From its arrival in 1946 and up to the present day, on the road, in club racing, in drag races or competing for land speed records, it dominated the motorcycle world, leading to the famous catchphrase coined by the factory: The World's Fastest Standard Motorcycle. It was a FACT, NOT a slogan. Images such as that of Rollie Free in swimming trunks laying flat on his works modified Black Shadow and taking the American motorcycle land speed record at Bonneville in 1948 have now

passed into posterity In fact the big Vincent was so ahead of its time that it continued to compete successfully almost arrogantly in racing until the mid 1970s against modern bikes No other motorcycle in the world can claim this kind of achievement Following the premature ending of Vincent production Fritz Egli s 1967 Egli Vincent was the first chassis completely redesigned for a Vincent in 21 years Egli s machine inspired numerous builders for several generations and this book traces holistically the story of all those motorcycles in the broad context of the classic and modern history of the Vincent Understand how the flame of passion still burns brightly today British Leyland James Taylor,2018-03-26 In 1968 British Leyland brought together many of Britain s motor manufacturers with the intention of creating a robust unified group that could equal the strength of the big European conglomerates But this was not to be There have been many books about the politics and the business activities of British Leyland but British Leyland The Cars 1968 1986 looks exclusively at the cars that came from the company both the models it inherited and those it created The eighteen years of the corporation s existence saw a confusing multitude of different car types but this book resolves these confusions clarifying who built what and when The book takes 1986 as its cut off point because this was the year that the old British Leyland ceased to exist and what was left of the car and light commercial business was renamed the Rover Group The book includes Production histories and technical specifications of every major model The special overseas models Appendices on engines code names and factories Buying guidance on the models built in Britain This is the most comprehensive book so far to focus on the cars from British Leyland between 1968 1986 and it provides an overview of each model s production history together with essential specification details It is profusely illustrated with 178 colour and 63 b w photographs **Car and Driver** ,1992 *Cars & Parts* ,1993 *Autocar* ,2005 **Road and Track** ,1982 **The Autocar** ,1987 *Sports Car Market magazine - October 2008* , **Motor** ,1963 Jaguar Century Giles Chapman,2021-10-26 Jaguar Century is a lavishly illustrated large format retrospective examining 100 years of Jaguar one of the most acclaimed marques in automotive history Road & Track ,1984-02 **Popular Mechanics** ,1996-02 Popular Mechanics inspires instructs and influences readers to help them master the modern world Whether it s practical DIY home improvement tips gadgets and digital technology information on the newest cars or the latest breakthroughs in science PM is the ultimate guide to our high tech lifestyle
