Kendall, 2009 The gripping story of a young boy who survived the atrocities in Cambodia under the Khmer Rouge and escaped to the United States *America Is the Prison* Lee Bernstein, 2010-06-01 In the 1970s while politicians and activists outside prisons debated the proper response to crime incarcerated people helped shape those debates though a broad range of remarkable political and literary writings Lee Bernstein explores the forces that sparked a dramatic prison art renaissance shedding light on how incarcerated people produced powerful works of writing performance and visual art These included everything from George Jackson's revolutionary *Soledad Brother* to Miguel Pinero's acclaimed off Broadway play and Hollywood film *Short Eyes* An extraordinary range of prison programs fine arts theater secondary education and prisoner run programs allowed the voices of prisoners to influence the Black Arts Movement the Nuyorican writers New Journalism and political theater among the most important aesthetic contributions of the decade By the 1980s and 90s prisoners educational and artistic programs were scaled back or eliminated as the war on crime escalated But by then these prisoners words had crossed over the wall helping many Americans to rethink the meaning of the walls themselves and ultimately the meaning of the society that produced them **States of Childhood** Jennifer S. Light, 2020-07-14 How virtual adulthood children's role play in simulated cities states and nations helped construct a new kind of sheltered childhood for American young people A number of curious communities sprang up across the United States in the late nineteenth and early twentieth century simulated cities states and nations in which children played the roles of legislators police officers bankers journalists shopkeepers and other adults They performed real work passing laws growing food and constructing buildings among other tasks inside virtual worlds In this book Jennifer Light examines the phenomena of junior republics and argues that they marked the transition to a new kind of sheltered childhood for American youth Banished from the labor force and public life children inhabited worlds that mirrored the one they had left Light describes the invention of junior republics as independent institutions and how they were later established at schools on playgrounds in housing projects and on city streets as public officials discovered children's role playing helped their bottom line The junior republic movement aligned with cutting edge developmental psychology and educational philosophy and complemented the era's fascination with models and miniatures shaping educational and recreational programs across the nation Light's account of how earlier generations distinguished real life from role playing reveals a hidden history of child labor in America and offers insights into the deep roots of such contemporary concepts as gamification play labor and virtuality **13** Consequence Street Miriam Pina Vanek, 2014-12-19 This is about the story of Mary She was sixteen years old then tall and

Deconstructing Europe Sandra Ponzanesi,Bolette Blaagaard,2019-07-09 This book engages with the question of what makes Europe postcolonial and how memory whiteness and religion figure in representations and manifestations of European identity and self perception To deconstruct Europe is necessary as its definition is now contested more than ever both internally through the proliferation of ethnic religious regional differences and externally Europe expanding its boundaries but closing its borders This edited volume explores a number of theoretical discussions on the meaning of Europe and proposes analyzing some of the deeds committed both today and in the past in the name of Europe by foregrounding a postcolonial approach To deconstruct Europe as a postcolonial place does not imply that Europe s imperial past is over but on the contrary that Europe s idea of self and of its polity is still struggling with the continuing hold of colonialist and imperialist attitudes The objective of this volume is to account for historical legacies which have been denied forgotten or silenced such as the histories of minor and peripheral colonialisms Nordic colonialisms or Austrian Spanish and Italian colonialism and to account for the realities of geographical margins within Europe such as the Mediterranean and the Eastern border while tracing alternative models for solidarity and conviviality The chapters deal with social and political formations as well as cultural and artistic practices drawing from different disciplinary backgrounds and methodological traditions As such it creates an innovative space for comparative and cross disciplinary exchanges This book was previously published as a special issue of the journal Social Identities
