The Green Dragon Jamie Kershaw, **Swindled** Bee Wilson,2008 Bad food has a history *Swindled* tells it Through a fascinating mixture of cultural and scientific history food politics and culinary detective work Bee Wilson uncovers the many ways swindlers have cheapened falsified and even poisoned our food throughout history In the hands of people and corporations who have prized profits above the health of consumers food and drink have been tampered with in often horrifying ways padded diluted contaminated substituted mislabeled misnamed or otherwise faked *Swindled* gives a panoramic view of this history from the leaded wine of the ancient Romans to today s food frauds such as fake organics and the scandal of Chinese babies being fed bogus milk powder Wilson pays special attention to nineteenth and twentieth century America and England and their roles in developing both industrial scale food adulteration and the scientific ability to combat it As *Swindled* reveals modern science has both helped and hindered food fraudsters increasing the sophistication of scams but also the means to detect them The big breakthrough came in Victorian England when a scientist first put food under the microscope and found that much of what was sold as genuine coffee was anything but and that you couldn t buy pure mustard in all of London Arguing that industrialization laissez faire politics and globalization have all hurt the quality of food but also that food swindlers have always been helped by consumer ignorance *Swindled* ultimately calls for both governments and individuals to be more vigilant In fact Wilson suggests one of our best protections is simply to reeducate ourselves about the joys of food and cooking

Jekka's Herb Cookbook Jekka McVicar, 2012-03-31 Jekka McVicar's passion for herbs has evolved over 40 years. In this, her first cookery book, queen of herbs Jekka offers over 250 original recipes using simple garden herbs, along with tips for growing and maintaining them. Herbs have long been a part of British culinary history, yet few people utilise them to their full potential. Incredibly versatile, not only do herbs impart flavour, aroma, and texture to dishes, they are extremely beneficial to our health. Much more than a cookbook, Jekka's Herb Kitchen features 50 herbs, with a chapter and recipes devoted to each. Jekka's huge knowledge of each herb's history, cultivation, and medicinal and culinary uses is unsurpassed. Her recipes are simple and economical; she shows how herbs can transform a cheap cut of meat, enliven a pasta sauce, and even add delight to desserts. She also offers suggestions for how best to combine herbs and what parts to use, gives ideas for using up a glut of a specific herb, and advises on how to preserve your herbs for the winter months. Moreover, this volume is a family affair: many of Jekka's recipes are inspired by her grandmother and mother, and the stunning illustrations are by Jekka's daughter, Hannah McVicar. With colour photographs throughout, this is a unique and beautiful volume from the UK's foremost authority on herbs.
