Harshé, Dhananjay Tripathi, 2015-11-19 Owing to its geo strategic location and mineral wealth Afghanistan has acquired significance in the inter state politics of Asia as well as world politics during the past decades This book outlines Afghanistan's efforts to build a stable and peaceful democratic polity with external military support from the United States and its NATO allies It also analyses the nation's development initiatives with major powers such as India the United States Russia and Germany The volume brings to the fore ongoing tensions within the Afghan polity and its continued impact on Asian world politics discusses topical themes such as withdrawal of US troops and non traditional security and presents perspectives from scholars and experts from around the world including Afghans This work will be useful to scholars and researchers in political science international relations sociology area studies and the interested general reader **Computational**

Linguistics and Intelligent Text Processing Alexander Gelbukh, 2018-03-20 The two volume set LNCS 9623 9624 constitutes revised selected papers from the CICLing 2016 conference which took place in Konya Turkey in April 2016 The total of 89 papers presented in the two volumes was carefully reviewed and selected from 298 submissions The book also contains 4 invited papers and a memorial paper on Adam Kilgarriff's Legacy to Computational Linguistics The papers are organized in the following topical sections Part I In memoriam of Adam Kilgarriff general formalisms embeddings language modeling and sequence labeling lexical resources and terminology extraction morphology and part of speech tagging syntax and chunking named entity recognition word sense disambiguation and anaphora resolution semantics discourse and dialog Part II machine translation and multilingualism sentiment analysis opinion mining subjectivity and social media text classification and categorization information extraction and applications **Small and Medium-Sized Enterprises in**

International Economic Law Thilo Rensmann, 2017-06-09 International economic law with its traditional focus on large multinational enterprises is only slowly waking up to the new reality of small and medium sized enterprises SMEs entering the global marketplace In the wake of the digital revolution smaller companies now play an important role in the global economic landscape In 2015 the UN expressly called for SMEs to have greater access to international trade and investment and it is increasingly recognized that the integration of SMEs provides one of the keys to creating a more sustainable and

inclusive global economy As SMEs increasingly permeate transnational supply chains so interactions between these companies and international economic law and policy proliferate Small and Medium sized Enterprises in International Economic Law offers the first comprehensive analysis of the interaction between SMEs and international economic law This book presents a broad international perspective gathering together contributions by leading experts from academia legal practice and international organizations It opens up a field of enquiry into this so far unexplored dynamic and provide a touchstone for future debate The analysis covers a broad spectrum of international trade and investment law focusing on issues of particular interest to SMEs such as trade in services government procurement and trade facilitation Diverse perspectives illuminate regional developments in particular within the EU and the implications of mega regional free trade agreements The essays also examine questions of legitimacy of global economic governance in particular concerns surrounding the threat posed to the interests of domestic SMEs by the growing liberalization of international trade and investment These essays constitute essential reading for practitioners and academics seeking to navigate a previously neglected trend in international economic law

Towards 100% Renewable Energy Tanay Sidki Uyar,2017-02-21 This volume collects papers presented at the International 100% Renewable Energy Conferences IRENEC from 2011 to 2015 Given the time span the chapters have been updated to ensure they are timely and pertinent These proceedings are the outcome of an international group of research scientists and experts contributing to energy solutions within their research development and implementation This book is aimed at researchers and decision makers who are working on problems and issues within energy efficiency Tables graphs and diagrams accompany the text promoting 100% renewable energy as the solution in solidarity with energy end use efficiency and renewable energy storage In this manner Towards 100% Renewable Energy offers leaders considering the transition from fossil problems to alternative solutions new food for thought and incentives for action

Water and Energy International ,2014 **Proceedings of the International Conference on Artificial Intelligence and Computer Vision (AICV2020)** Aboul-Ella Hassanien,Ahmad Taher Azar,Tarek Gaber,Diego Oliva,Fahmy M. Electoral Rules and Democracy in Latin America Cynthia McClintock,2018-03-28 During Latin America s third democratic wave a majority of countries adopted a runoff rule for the election of the president effectively dampening plurality voting opening the political arena to new parties and assuring the public that the president will never have anything less than majority support In a

region in which undemocratic political parties were common and have often been dominated by caudillos cautious naysayers have voiced concerns about the runoff process arguing that a proliferation of new political parties vying for power is a sign of inferior democracy This book is the first rigorous assessment of the implications of runoff versus plurality rules throughout Latin America and demonstrates that in contrast to early scholarly skepticism about runoff it has been positive for democracy in the region Primarily through qualitative analysis for each country the author argues that indeed an important advantage of runoff is the greater openness of the political arena to new parties at the same time that measures can be taken to inhibit party proliferation In this context it is also the first volume to address whether or not a runoff rule with a reduced threshold for example 40% with a 10 point lead is a felicitous compromise between majority runoff and plurality The book considers the potential for the superiority of runoff to travel beyond Latin America in particular and rather provocatively to the United States

The Commercial & Financial Chronicle, 1907 **The Oxford Handbook of the Responsibility to Protect**
Alex Bellamy, Tim Dunne, 2016-06-30 The Responsibility to Protect R2P is intended to provide an effective framework for responding to crimes of genocide ethnic cleansing war crimes and crimes against humanity It is a response to the many conscious shocking cases where atrocities on the worst scale have occurred even during the post 1945 period when the United Nations was built to save us all from the scourge of genocide The R2P concept accords to sovereign states and international institutions a responsibility to assist peoples who are at risk or experiencing the worst atrocities R2P maintains that collective action should be taken by members of the United Nations to prevent or halt such gross violations of basic human rights This Handbook containing contributions from leading theorists and practitioners including former foreign ministers and special advisors examines the progress that has been made in the last 10 years it also looks forward to likely developments in the next decade

The Handbook of European Defence Policies and Armed Forces Hugo Meijer, Marco Wyss, 2018-06-20 The armed forces of Europe have undergone a dramatic transformation since the collapse of the Soviet Union The Handbook of European Defence Policies and Armed Forces provides the first comprehensive analysis of national security and defence policies strategies doctrines capabilities and military operations as well as the alliances and partnerships of European armed forces in response to the security challenges Europe has faced since the end of the cold war A truly cross European comparison of the evolution of national defence policies and armed forces remains a notable blind spot in the existing literature The Handbook of European Defence Policies and Armed Forces aims to fill this gap with fifty one contributions on European defence and international security from around the world The six parts focus on country based assessments of the evolution of the national defence policies of Europe s major medium and lesser powers since the end of the cold war the alliances and security partnerships developed by European states to cooperate in the provision of national security the security challenges faced by European states and their armed forces ranging from interstate through intra state and transnational the national security strategies and doctrines developed in response to these challenges the

military capabilities and the underlying defence and technological industrial base brought to bear to support national strategies and doctrines and finally the national or multilateral military operations by European armed forces The contributions to The Handbook collectively demonstrate the fruitfulness of giving analytical precedence back to the comparative study of national defence policies and armed forces across Europe

5th International Colloquium on Transformer Research and Asset Management Bojan Trkulja, Željko Štih, Žarko Janić, 2020-07-16 This book presents the proceedings of the 5th International Colloquium Transformer Research and Asset Management held in Opatija Croatia on October 9-12 2019 The papers chiefly focus on three groups of topics 1 Numerical Modeling Electromagnetic fields Coupled fields Transients Numerical modeling in design 2 Materials Components and New Technologies Insulating materials Magnetic materials and transformer noise Transformer components New transformer technologies 3 Transformer Lifecycle Management Diagnostics and monitoring Failure Asset management In service experiences The Colloquium was organized by the Croatian National Committee of CIGRE together with the Faculty of Electrical Engineering and Computing in Zagreb and the Centre of Excellence for Transformers

The Commercial and Financial Chronicle, 1904 *Regulations in the Energy Industry* André Dorsman, Özgür Arslan-Ayaydin, James Thewissen, 2020-02-12 This book provides a broad overview of the financial economic and legal implications of energy industry regulations in various countries In light of significant changes around the globe it analyses various institutions that are involved in regulative measures and based on various country studies it offers insights into how energy sector regulations differ across countries with different market structures and institutions Covering major topics such as laws and regulations geared to market competition and sustainability and the impact of noncompliance to regulations from the perspectives of financial markets and financial risks the book is divided into four parts Part I Regulations price and trade controls Part II Non price Part III Compliance with regulations and Part IV Market issues and regulation It will appeal to scholar in economics finance and related fields as well as to policymakers and practitioners in the energy industry This is the seventh volume in a series on energy organized by the Centre for Energy and Value Issues CEVI The previous volumes in the series were Financial Aspects in Energy 2011 Energy Economics and Financial Markets 2012 Perspectives on Energy Risk 2014 Energy Technology and Valuation Issues 2015 Energy and Finance 2016 and Energy Economy Finance and Geostrategy 2018

Education at a Glance 2017 OECD Indicators OECD, 2017-09-12 Education at a Glance OECD Indicators is the authoritative source for information on the state of education around the world With more than 125 charts and 145 tables included in the publication and much more data available on the educational database

Bradstreet's Weekly, 1902 **Dun's Review**, 1910 *Bradstreet's*, 1902 Big Data Analytics for Sustainable Computing Haldorai, Anandakumar, Ramu, Arulmurugan, 2019-09-20 Big data consists of data sets that are too large and complex for traditional data processing and data management applications Therefore to obtain the valuable information within the data one must use a variety of innovative analytical methods such as web analytics machine

learning and network analytics As the study of big data becomes more popular there is an urgent demand for studies on high level computational intelligence and computing services for analyzing this significant area of information science Big Data Analytics for Sustainable Computing is a collection of innovative research that focuses on new computing and system development issues in emerging sustainable applications Featuring coverage on a wide range of topics such as data filtering knowledge engineering and cognitive analytics this publication is ideally designed for data scientists IT specialists computer science practitioners computer engineers academicians professionals and students seeking current research on emerging analytical techniques and data processing software

Planning for Community-based Disaster Resilience Worldwide

Adenrele Awotona, 2016-10-14 We are witnessing an ever increasing level and intensity of disasters from Ecuador to Ethiopia and beyond devastating millions of ordinary lives and causing long term misery for vulnerable populations Bringing together 26 case studies from six continents this volume provides a unique resource that discusses in considerable depth the multifaceted matrix of natural and human made disasters It examines their bearing on the loss of human and productive capital the conduct of national policies and the setting of national development priorities and on the nature of international aid and bilateral assistance strategies and programs of donor countries In order to ensure the efficacy and appropriateness of their support for disaster survivors international agencies humanitarian and disaster relief organizations scholars non governmental organizations and members of the global emergency management community need to have insight into best practices and lessons learned from various disasters across national and cultural boundaries The evidence obtained from the numerous case studies in this volume serves to build a worldwide community that is better informed about the cultural and traditional contexts of such disasters and better enabled to prepare for respond to and finally rebuild sustainable communities after disasters in different environments The main themes of the case studies include the need for community planning and emergency management to unite in order to achieve the mutual aim of creating a sustainable disaster resilient community coupled with the necessity to enact and implement appropriate laws policies and development regulations for disaster risk reduction the need to develop a clear set of urban planning and urban design principles for improving the built environment s capacities for disaster risk management through the integration of disaster risk reduction education into the curricula of colleges and universities the need to engage the whole community to build inclusive governance structures as prerequisites for addressing climate change vulnerability and fostering resilience and sustainability Furthermore the case studies explore the need to link the existence and value of scientific knowledge accumulated in various countries with decision making in disaster risk management and the relevance and transferability from one cultural context to another of the lessons learned in building institutional frameworks for whole community partnerships

Unveiling the Energy of Verbal Art: An Psychological Sojourn through **Jan 2014 C4 International Paper**

In a global inundated with screens and the cacophony of immediate conversation, the profound energy and psychological resonance of verbal artistry often disappear in to obscurity, eclipsed by the regular onslaught of sound and distractions. Yet, situated within the musical pages of **Jan 2014 C4 International Paper**, a fascinating function of fictional beauty that pulses with fresh emotions, lies an unforgettable trip waiting to be embarked upon. Composed with a virtuoso wordsmith, this enchanting opus manuals viewers on a psychological odyssey, gently revealing the latent potential and profound influence embedded within the elaborate web of language. Within the heart-wrenching expanse of this evocative evaluation, we can embark upon an introspective exploration of the book is key styles, dissect their interesting writing design, and immerse ourselves in the indelible impression it leaves upon the depths of readers souls.
