D'Mello, 2022-08-10 *Key Questions in Environmental Toxicology* is designed as a self study tool for undergraduate students. Worklife, 1976 Schooling in Sub-Saharan Africa Clive Harber, 2017-07-12 This book is a comprehensive text for those interested in formal education in sub-Saharan Africa. It provides a thought provoking overview of the key educational ideas, themes, and issues facing schooling in Africa today by drawing on a wide literature to examine evidence concerning both educational policy and the working realities of primary and secondary schools in Africa. Based on the author's forty years of experience in researching and publishing on education in Africa, it takes a balanced but critical approach to analysing education in Africa and discusses both positive and negative patterns across the region as well as identifying differences between and within countries. The book examines major questions of educational provision, structure, content, and process but does so in a way that raises challenging questions about gender inequality, violence, authoritarianism.
