Leigh Sotheby & John Wilkinson (London), 1861 **Black France, White Europe** Emily Marker, 2022-10-15 Winner of the George Louis Beer Prize Black France White Europe illuminates the deeply entangled history of European integration and African decolonization Emily Marker maps the horizons of belonging in postwar France as leaders contemplated the inclusion of France's old African empire in the new Europe in the making European integration intensified longstanding structural contradictions of French colonial rule in Africa Would Black Africans and Black African Muslims be French If so would they then also be European What would that mean for republican France and united Europe more broadly Marker examines these questions through the lens of youth amid a surprising array of youth and education initiatives to stimulate imperial renewal and

European integration from the ground up She explores how education reforms and programs promoting solidarity between French and African youth collided with transnational efforts to make young people in Western Europe feel more European She connects a particular postwar vision for European unity which coded Europe as both white and raceless Christian and secular to crucial decisions about what should be taught in African classrooms and how many scholarships to provide young Africans to study and train in France That vision of Europe also informed French responses to African student activism for racial and religious equality which ultimately turned many young francophone Africans away from France irrevocably Black France White Europe shows that the interconnected history of colonial and European youth initiatives is key to explaining why despite efforts to strengthen ties with its African colonies in the 1940s and 1950s France became more European during those years

**I'm Buffy and You're History** Patricia Pender, 2016-06-28 Buffy the Vampire Slayer gave contemporary TV viewers an exhilarating alternative to the tired cultural trope of a hapless attractive blonde woman victimized by a murderous male villain With its strong capable heroine witty dialogue and a creator Joss Whedon who identifies himself as a feminist the cult show became one of the most widely analysed texts in contemporary popular culture The last episode broadcast in 2002 did not herald the passing of a fleeting phenomenon Buffy is a media presence still active on DVD and the internet alive in the career of Joss Whedon and studied internationally I m Buffy and You re History puts the entire series under the microscope investigating its gender and feminist politics In this book Patricia Pender argues that Buffy includes diverse elements of feminism and reconfigures and sometimes revises the ideals of American second wave feminism for a wide third wave audience She also explores the ways in which the final season s vision of collective feminist activism negotiates racial and class boundaries Exploring the Slayer s postmodern politics her position as a third wave feminist icon her placing of masculinity in extremis and her fandom and legacy in popular culture this is a fresh and challenging contribution to the growing literature on the pitfalls and pleasures of a great cult TV show

External Powers and the Gulf Monarchies Jonathan Fulton, Li-Chen Sim, 2018-09-03 The Gulf monarchies have been generally perceived as status quo actors reliant on the USA for their security but in response to regional events particularly the Arab Spring of 2011 they are pursuing more activist foreign policies which has allowed other international powers to play a larger role in regional affairs This book analyses the changing dynamic in this region with expert contributors providing original empirical case studies that examine the relations between the Gulf monarchies and extra regional powers including the USA Russia China India Brazil Turkey Japan South Korea France and the United Kingdom At the theoretical level these case studies explore the extent to which different international relations and international political economy theories explain change in these relationships as the regional political and security environment shifts Focusing on how and why external powers approach their relationships with the Gulf monarchies contributors ask what motivates external powers to pursue deeper involvement in an unstable region that has seen three major conflicts in the past 40 years Addressing an under analysed yet important topic the volume

will appeal to scholars in the fields of international relations and international political economy as well as area specialists on the Gulf and those working on the foreign policy issues of the extra regional powers studied

of residents This tension between local needs and national aspirations are linked to issues of global importance including security migration and refugee resettlement The essays collected here consider how culture faith and politics influenced the solutions offered by social housing they provide an insightful look at how social housing has evolved since the 19th century and how it will need to adapt to suit the 21st

**The Commercial & Financial Chronicle, Bankers' Gazette, Commercial Times, Railway Monitor, and Insurance Journal**, 1868

The British Aircraft Industry and American-led Globalisation Takeshi Sakade, 2021-12-09 Sakade challenges the narrative that the focus of British manufacturing went from Empire to Europe and argues rather that following the Second World War the key relationship was in fact trans Atlantic There is a commonly accepted belief that during the twentieth century British manufacturing declined irreparably that Britain lost its industrial hegemony But this is too simplistic In fact in the decades after 1945 Britain staked out a new role for itself as a key participant in a US led process of globalisation Far from becoming merely a European player the UK actually managed to preserve a key share in a global market and the British defence industry was to a large extent successfully rehabilitated Sakade returns to the original scholarly parameters of the decline controversy and especially questions around post war decline in the fields of high technology and the national defence industrial base Using the case of the strategically critical military and civil aircraft industry he argues that British industry remained relatively robust A valuable read for historians of British aviation and more widely of 20th century British Industry

**Urban Agriculture for Growing City Regions** Undine Giseke, Maria Gerster-Bentaya, Frank Helten, Matthias Kraume, Dieter Scherer, Guido Spars, Fouad Amraoui, Abdelaziz Adidi, Said Berdouz, Mohamed Chlaida, Majid Mansour, Mohamed Mdafai, 2015-09-07 This book demonstrates how agriculture can play a determining role in integrated climate optimised urban development Agriculture within urban growth centres today is more than an economic or social left

over or a niche practice It is instead a complex system that offers multiple potentials for interaction with the urban system Urban open space and agriculture can be linked to a productive green infrastructure this forms new urban rural linkages in the urbanizing region and helps shape the city But in order to do this agriculture has to be seen as an integral part of the urban fabric and it has to be put on the local agenda Urban Agriculture for Growing City Regions takes the example of Casablanca one of the fastest growing cities in North Africa to investigate this approach The creation of synergies between the urban and rural in an emerging megacity is demonstrated through pilot projects design solutions and multifunctional modules These synergies assure greater resource efficiency particularly regarding the use and reuse of water and they strengthen regional food security and the social integration of multiple spheres A transdisciplinary research approach brings together different scientific disciplines and local actors into a process of integrated knowledge production The book will have a long lasting legacy and is essential reading for researchers planners practitioners and policy makers who are working on urban development and urban agricultural strategies

Ethical Trade, Gender and Sustainable Livelihoods Kiah Smith, 2014-03-21 Fair and ethical trade is often criticized for being highly gendered and for institutionalizing the ethical values of consumers the priorities of NGOs and governments and most of all food retailers But little is known about how women smallholder farmers experience diverse ethical standards or whether and how standards reflect their values local cultural and environmental contexts or priorities for achieving sustainable livelihoods Linking gender smallholder livelihoods and global ethical trade regulations this book reveals that multiple understandings of social justice environmental sustainability and well being or ethicality exist in parallel to those institutionalized in ethical trade schemes Through an in depth case study of smallholder subsistence and French bean farming in Kenya the book grounds the analysis of livelihoods gender and ethical trade in women smallholders perspectives links the macro level of markets with the micro level of livelihoods and engenders relations of power structure and agency in food networks It brings together disparate bodies of theory to illustrate the knowledge strategies and values of women smallholder farmers that are often beyond the scope of ethical trade regulations It also provides a challenging new vision for doing food systems research

also serve the needs of the twenty first century world order This is an insightful book for all scholars students and policymakers working in international relations security studies the history of neutrality and Afghanistan studies

**The Routledge Handbook of the History of the Middle East Mandates** Cyrus Schayegh, Andrew Arsan, 2015-06-05 The Routledge Handbook of the History of the Middle East Mandates provides an overview of the social political economic and cultural histories of the Middle East in the decades between the end of the First World War and the late 1940s when Britain and France abandoned their Mandates It also situates the history of the Mandates in their wider imperial international and global contexts incorporating them into broader narratives of the interwar decades In 27 thematically organised chapters the volume looks at various aspects of the Mandates such as The impact of the First World War and the development of a new state system The impact of the League of Nations and international governance Differing historical perspectives on the impact of the Mandates system Techniques and practices of

government The political social economic and cultural experiences of the people living in and connected to the Mandates This book provides the reader with a guide to both the history of the Middle East Mandates and their complex relation with the broader structures of imperial and international life It will be a valuable resource for all scholars of this period of Middle Eastern and world history Canadian Multiculturalism @50 Augie Fleras, 2021-07-26 Choice Award 2022 Outstanding Academic Title The multiculturalization of Canada has catapulted it into the front ranks of countries in advancing a principled diversity governance Fifty years after the inception of a multicultural governance model that seemingly works and is relatively popular Canada remains one of the few countries in the world to believe in multiculturalism Yet the irony is inescapable Notwithstanding its lofty status as a Canadian icon and an aspirational ideal an official multiculturalism remains misunderstood both in Canada and abroad in terms of what it means how it works and for whom and why it endures If anything as the book explains the idea of multiculturalism remains shrouded in the conceptual fog of a riddle wrapped in a mystery inside an enigma An interplay of polite fictions that mask inconvenient truths puts the onus on deconstructing Canadian multiculturalism by conceptualizing strengths including a probe into why multiculturalism ostensibly works in Canada but rarely elsewhere analyzing weaknesses critically assessing its worth and envisioning its future in responding to the new realities and demands of a post multicultural world That Canada s multiculturalism remains a work in progress albeit one with innovative possibilities provides a fitting tribute
