Gourmet Lab serves up a full menu of activities for science teachers of grades 6-12. This collection of 15 hands on experiments, each of which includes a full set of both student and teacher pages, challenges students to take on the role of scientist and chef as they boil, bake and toast their way to better understanding of science concepts from chemistry, biology and physics. By cooking edible items such as pancakes and butterscotch, students have the opportunity to learn about physical changes in states of matter, acids and bases, biochemistry and molecular structure. The Teacher pages include Standards addressed in each lab, a vocabulary list, safety protocols, materials required, procedures, data analysis, student questions, answer key and conclusions and connections to spur wrap up class discussions. Cross curricular notes are also included to highlight the lesson's connection to subjects such as math and literacy.
