How did the Black Death lead to the Renaissance?

- A** It made people give more money to the Church, and the Church used its wealth to sponsor artists.
- B** It inspired writers and painters to make art that celebrated life in order to make people feel better.
- C** When his brother died of the Black Death, Johannes Gutenberg inherited the print shop in which he would invent moveable type.

- D** It decreased the population, so each person could have more resources, creating economic prosperity.

According to the passage, the Black Death "had one positive effect: it left more in terms of food, resources and wealth for those who survived. This bounty helped usher in an economic boom."
