

THE MALAWI NATIONAL EXAMINATIONS BOARD

TIMETABLE FOR 2025 JUNIOR CERTIFICATE EXAMINATION

INSTRUCTIONS:

1. Centres may not vary times specified below for the commencement of papers without prior approval from the Board.
2. No candidate will be permitted into the examination room after the examination has been in progress for 30 minutes and no extra time shall be given to late comers.
3. Supervisors and invigilators should check both the morning and afternoon schedules prior to sitting of examination papers for the day.
4. Supervisors and invigilators should also check the date, time, subject or paper number before opening the envelope.
5. Candidates should sign the Declaration form after the code of conduct has been read to them to signify that they have understood and accepted that they shall abide by them. This should be done before they write their first paper of this examination.
6. **CANDIDATES MUST MAKE SURE THAT THE EXAMINATION ENVELOPE MARKED 'A' IS OPENED AND THAT THE ONE MARKED 'B' IS SEALED IN THEIR PRESENCE.**
7. After each examination, the supervisor and the invigilator should ensure that all scripts have been collected and enclosed in the return envelope. The Board will not accept scripts sent separately.

Neural Dynamics of Neurological Disease Christopher A. Shaw,2017-02-03 The emerging understanding of age related neurological disorders suggests that notions of a single causal gene toxin being responsible is likely incorrect Neurological disorders probably arise due to a unique intersection of multiple genetic and toxic factors combined with additional contributions of age stage of development immune system actions and more This perspective leads to the view that rather than reflecting only one pathway to end state disease each is a spectrum disorder and every individual case is therefore unique Neural Dynamics of Neurological Disease argues for a fundamental rethinking of what we think we know about neurological disorders how they arise and progress and crucially what might be done to cure them It first introduces the concept of neural dynamics of neurological disease then examines various diseases and gives examples of the interplay of

elements such as neural systems cell types and biochemical pathways that can contribute to disease The concluding chapters point the way to how the emerging notion of neurological disease as a dynamic process may lead to more successful treatment options Providing a cross disciplinary approach to understanding the origin and progression of neurological disease *Neural Dynamics of Neurological Disease* is a timely and valuable resource for neuroscientists researchers and clinicians

Biopesticides Amitava Rakshit,Vijay Singh Meena,P.C. Abhilash,B.K. Sarma,H B Singh,Leonardo Fraceto,Manoj Parihar,Anand Kumar Singh,2021-11-17 *Biopesticide Volume Two* the latest release in the *Advances in Bioinoculant* series provides an updated overview on the active substances utilized in current bioinsecticides along with information on which of them can be used for integrated pest management programs in agro ecosystems The book presents a comprehensive look at the development of novel solutions against new targets also introducing new technologies that enhance the efficacy of already available active substances Finally readers will find insights into the advanced molecular studies on insect microbial community diversity that are opening new frontiers in the development of innovative pest management strategies This book will be valuable to those prioritizing agro biodiversity management to address optimal productizing and enhanced food security Explores the increasing number of newly introduced and improved products that can be used alone or in rotation or combination with conventional chemicals Promotes the importance of and tactics for managing the agro ecosystem surrounding food security Provides state of the art description of various approaches and techniques for the real world application of biopesticides

Floriculture and Ornamental Plants S. K. Datta,Youdh Chand Gupta,2022-07-05 The volume on oilseed crops is developed as a part of a series on *Handbook of Agrobiodiversity Conservation and Use of Plant Genetic Resources* The handbook would function as a ready reference book for availability of PGR globally along with specific source wherefrom they can be procured and used breeding programs particularly to overcome various crop production constraints and to improve productivity and quality The volume on floriculture and ornamental plants will be the source of basic information on origin and evolution and global dispersal of cultivated species of ornamentals Presently floriculture has established its credibility in improving income through increased productivity generating employment and in enhancing exports All research and developmental activities on ornamental crops are essentially multi disciplinary in nature recognizing local issues as well as country issue Floriculture is developing as an area of high technology based frontier interdisciplinary area on scientific excellence Floriculture has progressed both scientifically and commercially due to concentrated efforts made on multidisciplinary research It is developing as an area of high technology based frontier interdisciplinary area on scientific excellence The volume will contain all information about different ornamentals This shall be put together to develop a complete documentation of the results of the research and demonstrations conducted by different scientists The volume will provide an illustrated horto taxonomical account of important ornamental species and cultivars germplasm status and their usages propagation nursery management techno

economics conventional breeding induced mutagenesis new varieties cytogenetics tissue culture characterization of varieties dehydration of flowers etc This volume will give a coherent and concise account on recent developments It will deal with all the important and relevant aspects of floriculture The publication of this volume is planned to reveal multifarious activities done on different aspects of floriculture so that innovations made so far can be used judiciously for this sector This book shall provide authoritative review account of many aspects of current interest and progress in the field of floriculture The topics included in the book are interdisciplinary and cater not only classical floriculture but also relevant modern aspects The book will provide valuable data on different aspects and will be widely accepted by professional scientists researchers teachers students floriculturists technocrats and planners The volume will be an invaluable asset to floriculture scientists

International Handbook of Mathematical Learning Difficulties Annemarie Fritz,Vitor Geraldi Haase,Pekka Räsänen,2019-01-30 This comprehensive volume provides teachers researchers and education professionals with cutting edge knowledge developed in the last decades by the educational behavioural and neurosciences integrating cognitive developmental and socioeconomic approaches to deal with the problems children face in learning mathematics The neurocognitive mechanisms and the cognitive processes underlying acquisition of arithmetic abilities and their significance for education have been the subject of intense research in the last few decades but the most part of this research has been conducted in non applied settings and there s still a deep discrepancy between the level of scientific knowledge and its implementation into actual educational settings Now it s time to bring the results from the laboratory to the classroom Apart from bringing the theoretical discussions to educational settings the volume presents a wide range of methods for early detection of children with risks in mathematics learning and strategies to develop effective interventions based on innovative cognitive test instruments It also provides insights to translate research knowledge into public policies in order to address socioeconomic issues And it does so from an international perspective dedicating a whole section to the cultural diversity of mathematics learning difficulties in different parts of the world All of this makes the International Handbook of Mathematical Learning Difficulties an essential tool for those involved in the daily struggle to prepare the future generations to succeed in the global knowledge society

European Agreement Concerning the International Carriage of Dangerous Goods by Inland Waterways (Adn) United Nations Publications,2015 The ADN done at Geneva on 26 May 2000 under the auspices of the United Nations Economic Commission for Europe UNECE and the Central Commission for Navigation on the Rhine CCNR has been in force since February 2008 This version has been prepared on the basis of amendments applicable as from 1 January 2015 The Regulations annexed to the ADN contain provisions concerning dangerous substances and articles their carriage in packages and in bulk on board inland navigation vessels or tank vessels as well as provisions concerning the construction and operation of such vessels They also address requirements and procedures for inspections the issue of certificates of approval recognition of classification societies monitoring and training and examination of experts They are

harmonized to the greatest possible extent with the dangerous goods agreements for other modes of transport **OECD Series on Testing and Assessment Guidance on Selecting a Strategy for Assessing the Ecological risk of Organometallic and Organic Metal Salt Substances based on their Environmental Fate** OECD,2017-04-13 In this document a strategy is presented to facilitate the ecological risk assessment of organometallic compounds OM and organic metal salts OMS outlining key steps that are based on elucidation of the fate of these substances in the environment This document puts forth the recommendation
