the battle to end oppression shares the moral grammar that structures exploitation and sanctions state violence Lisa Marie Cacho forcefully argues that the demands for personhood for those who in the eyes of society have little value depend on capitalist and heteropatriarchal measures of worth With poignant case studies Cacho illustrates that our very understanding of personhood is premised upon the unchallenged devaluation of criminalized populations of color Hence the reliance of rights based politics on notions of who is and is not a deserving member of society inadvertently replicates the logic that creates and normalizes states of social and literal death Her understanding of inalienable rights and personhood provides us the much needed comparative analytical and ethical tools to understand the racialized and nationalized tensions between racial groups Driven by a radical relentless critique Social Death challenges us to imagine a heretofore unthinkable politics and ethics that do not rest on neoliberal arguments about worth but rather emerge from the insurgent experiences of those negated persons who do not live by the norms that determine the productive patriotic law abiding and family oriented subject

**Jersey Bulletin** ,1920      *The Relevance of Social Science for Medicine* L. Eisenberg,A. Kleinman,2012-12-06 The central purpose of this book is to demonstrate the relevance of social science concepts and the data derived from empirical research in those sciences to problems in the clinical practice of medicine As physicians we believe that the biomedical sciences have made and will continue to make important contributions to better health At the same time we are no less firmly persuaded that a comprehensive understanding of health and illness an understanding which is necessary for effective preventive and therapeutic measures requires equal attention to the social and cultural determinants of the health status of human populations The authors who agreed to collaborate with us in the writing of this book were chosen on the basis of their experience in designing and executing research on health and health services and in teaching social science concepts and methods which are applicable to medical practice We have not attempted to solicit contributions to cover the entire range of the social sciences as they apply to medicine Rather we have selected key approaches to illustrate the more salient areas These include social epidemiology health services research social network analysis cultural studies of illness behavior along with chapters on the social labeling of deviance patterns of therapeutic communication and economic and political analyses of macro social factors which influence health outcomes as well as services      Film and Radio Discussion Guide ,1952      *Social Sciences and Humanities Index* ,1916      *The Publishers' Trade List Annual* ,1905      **Subject Guide to Books in Print** ,2001      **Pure-bred Dogs, American Kennel Gazette** ,1959
