inconvenient times They wouldn't disappear no matter how hard she pushed them away The hard questions asked what should we do about our world's problems and what is my individual and collective role in these problems Somehow though Casson found that these tough problems always seemed more manageable when she moved her body in nature As she ran hiked and dived she found she had the mental space to move beyond repetitious panic and start playing with these questions The key to these thorny problems seemed to be not just in her mind but in her body itself Casson realized that these questions don't go away but that we can handle them better We can play with them The best way to play with them is outdoors while sweating physically and mentally
