Course Description: Algebra 2 reviews Algebra 1 and expands concepts learned for graphing and solving linear, nonlinear, and quadratic equations, an advanced look at radical, exponential, rational, and logarithmic equations and functions.

Course Notes: Daily homework is considered to be the major part of a student's learning experience. Select homework assignments will be turned in to the tutor so she can see that work is being done correctly. Tests, quizzes, exams, and homework receive a percentage from the tutor. Class attitude and weekly performance will also be taken into consideration. A certificate of completion will be given at the end of the academic year.
