rather as a way of life Learning will be something that we all recognize encourage and actively support through formal education community participation and the power of the connected world of information communication and technology A utopian vision No The authors describe societies undergoing a revolution in thinking and working that despite disruptions offers ways to cope with ongoing social political and economic changes This revolution is unfinished as long as education systems lag behind these larger transformations In this book the authors address that lag by charting a course across disciplines to connect learning to what happens outside the classroom ultimately producing lifelong learners who can take full advantage of today s increasingly open and dynamic societies

Restoring Dignity in Public Schools Maria Hantzopoulos, 2016-02-12 For many students in urban public schools the routines of standards based instruction and frequent testing remove the possibilities for sustained inquiry and critical engagement in school and with the larger world Restoring Dignity in Public Schools demonstrates how urban public schools can create thriving authentic centers of learning Drawing from rich narratives of human rights education HRE in action the author shows how school leaders can create an environment in which a culture of dignity respect tolerance and democracy flourishes The book examines the dynamics of HRE in practice defines its constituent elements and explains how these components work in tandem to produce schooling that encourages young people to critically interact with the world around them and imagine different alternatives for the future This timely book provides a viable alternative to the currently favoured strategies of increased testing privitization and disciplinary control
