district nursing care within the patient's home. It provides a comprehensive resource for all district nurses, community nurses, students, and healthcare professionals involved in the district nursing team, enabling them to practice competently and confidently and deliver clinically effective, person-centred care. The District Nursing Manual of Clinical Procedures addresses the complexity of district nursing care and encompasses key aspects of clinical practice, including decision-making in areas that district and community nurses often struggle with or find difficult when they are on their own in a patient's home. It utilises the latest clinical research and expert clinical knowledge to address these challenges and to provide the underlying theory and evidence for district nursing care.

Key features:

- Evidence-based manual of practical clinical skills in district nursing care.
- Clear, user-friendly and easy to understand.
- Contains recommendations for expert care within a patient's own home.
- Addresses key concerns of district and community nurses working on their own within a patient's home.
- Encompasses key aspects of district nursing care.
- Placed in the context of person-centred care.
- All procedures include the rationale for each action, why, as well as how.
