History Alive Three Chinese Philosophies Assessment:

What is God's Revelation? Ramin Pourfarzib, 2024-04-02 History is full of people who have claimed they came from God or bore messages from God such as Confucius Buddha Bahauallah Muhammed Jesus and many others Buddhists believe in the wheel of reincarnation to reach nirvana or nothingness Hindus believe God reveals Himself through various avatars Muslims believe Muhammed is the final prophet and Jesus is not the Son of God Orthodox Jews deny Jesus as the Messiah Christians believe Jesus fulfilled the Messianic prophecies and is the Son of God Atheists deny God's existence altogether These belief systems cannot all be true so how can we know who is telling the truth Promoting religious literacy is crucial to addressing the devastating impact of false religions Religious literacy enables individuals to critically evaluate different belief systems recognize the signs of manipulation and differentiate between genuine spiritual teachings and false ideologies Find out how to determine whether there is a God and which faith is telling the truth in this book which applies a litmus test to seek God's revelation to humanity through His prophets and prophecies [Bring Learning Alive!](#) Teachers Curr, Bert Bower, Jim Lobdell, Sherry Owens, 2005 *Spiritual Assessment in Healthcare: A Resource Guide* Linda Ross, Wilfred McSherry, 2025-05-23 This new edition led by two prominent Professors of Nursing explores issues of spiritual assessment in healthcare practice while adopting a lifespan approach and also including expertise from nursing midwifery medicine mental health children and adolescents meaningful ageing and intellectual disability The importance of cultural sensitivity and diversity are explored because it is recognised that these are themes that have been neglected in discussions about spiritual assessment It provides nurses and other healthcare professionals with a valuable resource that will assist them with identifying and meeting their patients and clients spiritual needs The book as previously commenced by providing an overview of what is meant by spirituality this operational definition is derived from the authors research and experiences in teaching these subjects to a wide range of healthcare professionals The updated and expanded text will assist readers to engage with the conceptual and theoretical challenges and developments associated with spirituality and spiritual care The book offers very practical insights and steps for introducing and advancing spiritual assessment in a wide range of healthcare settings The adoption of a life span approach means that concepts such as spirituality spiritual care and assessment can be better understood by healthcare professionals working in specialist fields of practice Each chapter will draw upon up to date evidence to demonstrate the development of both the art and science of spiritual assessment The book will continue to challenge contemporary thinking asking for healthcare professionals working within a diverse range of care settings organisations institutions educational contexts to evaluate their practice in relation to spiritual assessment A primary goal of this 2nd Edition is to continue to advance thinking and practice in spiritual assessment by using a lifespan approach that offers insight into the dilemmas obstacles deficits that inhibit or prevent nurses and other allied healthcare providers from supporting clients and patients with their spiritual needs **China, India, and East and Southeast Asia: Assessing**

Jesus in History, Legend, Scripture, and Tradition Leslie Houlden, Antone Minard, 2015-06-23 This multifaceted work contextualizes Jesus in religion and culture by bringing together articles on folklore history literature philosophy popular culture and theology Many books have been written about Jesus but this two volume work takes a different approach than most What sets it apart is that it emphasizes Jesus lasting impact on world history and his legacy in the imagination over 2 000 years Written as an introduction the encyclopedia is equally suitable for Christians who wish to better understand the history and philosophy of their religion and for non Christians who wish to grasp Christianity in its historical and social contexts Alphabetically arranged entries cover representations of Jesus in the bible and the writings of key theologians examining the essentials of philosophical and religious views across history The set also includes hundreds of entries that reflect on the role Jesus has played in popular culture and contemporary vernacular religion perspectives that are not usually placed alongside theology Through the encyclopedia students will see how artists writers philosophers church figures and others have imagined Jesus and been influenced by their perceptions of him At the same time primary documents will encourage students to compare and contrast ideas and evaluate arguments that have arisen over 20 centuries
