QUESTION 1: REASON WHY THE WORLD WAR I BROKE OUT.

Study the source and answer the questions that follow.

SOURCE A

World War I, also known as the Great War, began in 1914 after the assassination of Archduke Franz Ferdinand of Austria. His murder catapulted into a war across Europe that lasted until 1918. During the conflict, Germany, Austria-Hungary, Bulgaria and the Ottoman Empire (the Central Powers) fought against Great Britain, France, Russia, Italy, Romania, Canada, Japan and the United States (the Allied Powers). Thanks to new military technologies and the horrors of trench warfare, World War I saw unprecedented levels of carnage and destruction. By the time the war was over and the Allied Powers claimed victory, more than 16 million people—soldiers and civilians alike—were dead.

assistance where outside powers train and advise the host nation's military. Despite billions of dollars spent, the commitment of thousands of advisors and innumerable casualties, the American efforts in Afghanistan and Iraq failed catastrophically. Nevertheless, among those colossal military disasters were pockets of success. The Iraqi Special Operations Forces (ISOF) held back the Islamic State in 2014 long enough to allow American and allied forces to flow back into the country, and many Afghan commando units fought to the bitter end as their country disintegrated around them. What made those units successful while the larger missions ended disastrously? Author Frank K. Sobchak explores security force assistance across five case studies, examining what factors were most critical for U.S. Special Forces units to build capable partners like the ISOF and the commandos. More specifically, the book assesses the impact of five components of Special Forces advisory missions: language training and cultural awareness of the advising force; the partner force to advisor ratio; the advisors' ability to organize host nation forces; whether advisors are permitted to guide in combat; and the consistency in advisor pairing. Based on the experiences of U.S. Army Special Forces in El Salvador (1981-1991), Colombia (2002-2016), the Philippines (2001-2015), Iraq (2003-2011), and Afghanistan (2007-2021), Sobchak argues that the most crucial factors in producing combat-effective partners are consistency in advisor pairing and maintaining a partner force to advisor ratio of twelve special forces soldiers advising a company-sized force or smaller. Intriguingly and counter to conventional wisdom, at first glance, language training and cultural awareness do not seem to be critical factors, as most of the Green Berets that trained units in Iraq and Afghanistan lacked both capabilities. Despite an orthodoxy that argues the opposite, there is little evidence that combat advising is decisive in producing effective partners, and there is conflicting evidence that language training and cultural awareness are important. Many of these findings, while focused on Special Forces operations and doctrine, could be used to improve the odds of success for larger security force assistance missions as well.

Lewitt, 2016-03-15. An updated examination of what's weakening the U.S. economy and how to fix it. The Committee to Destroy the World: Inside the Plot to Unleash a Super Crash on the Global Economy is a passionate and informed analysis of the struggling global economy. In this masterfully conceived and executed work, Michael Lewitt, one of Wall Street's most respected market strategists and money managers, updates his groundbreaking examination of the causes of the 2008 crisis and argues that economic and geopolitical conditions are even more unstable today. Education and Historical Justice James Miles,Matthew R. Palestinian Women and Popular Resistance Liyana Kayali, 2020-11-09 This book explores Palestinian women's views of popular resistance in the West Bank and examines factors shaping the nature and extent of their involvement. Despite the signing of the Oslo peace accords in 1993 and 1995, the Occupied Palestinian Territories in the contemporary period have experienced tightened Israeli occupational control and worsening political, humanitarian, security, and economic conditions. Based on ethnographic fieldwork conducted with women in the West Bank, this book looks at how Palestinian women in the post-Oslo period perceive, negotiate, and enact resistance. It demonstrates that far from being apathetic, as some observers have charged, Palestinian women remain deeply committed to the goals of national liberation and wish to contribute to an effective popular resistance movement. Yet many Palestinian women feel alienated from prevailing forms of collective popular resistance in the OPT due to the low levels of legitimacy they accord them. This alienation has been made stark by the gendered and intersecting impacts of expanding settler colonialism, tightening spatial control, a professionalised and depoliticised civil society, reinforced patriarchal constraints, Israeli and Palestinian Authority (PA) repression and violence, and a deteriorating economy, all of which have raised the barriers Palestinian women face to active participation. Undertaking a gendered analysis of conflict and resistance, this volume highlights significant changes over the course of a long-running resistance movement. Readers interested in gender and women's studies, the Arab-Israel conflict, and Middle East politics will find the study beneficial.

The People, No Thomas Frank, 2020-07-14 A brilliantly written eye-opening look at how elites distort the meaning of populism by the bestselling author of *What's the Matter with Kansas*. The Washington Post: Rarely does a work of history contain startling implications for the present, but in *The People*, No, New York Times bestselling author Thomas Frank pulls off that explosive effect by showing us that everything we think we know about populism is wrong. Today, populism is seen as a frightening thing, a term pundits use to describe the racist philosophy of Donald Trump and European extremists. But this is a mistake. The real story of populism is an account of enlightenment and liberation; it is the story of American democracy itself, of its ever-widening promise of a decent life for all. Taking us from the tumultuous 1890s, when the radical left-wing Populist Party, the biggest mass movement in American history, fought Gilded Age plutocrats to the reformers' great triumphs under Franklin Roosevelt and Harry Truman, Frank reminds us how much we owe to the populist ethos. Frank also shows that elitist groups have reliably detested populism, lashing out at working-class concerns. The anti-populist vituperations by the Washington centrists of today are only the latest expression. Frank pummels the elites, revisits the movement's provocative politics, and declares true populism to be the language of promise and optimism. This is a ringing affirmation of a movement that Frank shows us is not the problem of our times but the solution for what ails us. Frank

describes an indigenous radical tradition that descends from Jefferson and Paine and stretches forward to Franklin Roosevelt and Martin Luther King Jr Compelling The New York Times Book Review Tom Frank does what few writers today are capable of doing he criticizes his own side The Wall Street Journal Readers come away knowing that at its heart populism means just one thing This land was made for you and me The Washington Post Unmanning Katherine Chandler,2020-03-13
