Physics Adam Kay, 2024-06-18 The artfully written splendid history of classical and quantum physics Science that rightfully
highlights the limitations of current physics Wall Street Journal and argues for a revolutionary new understanding of
quantum mechanics The received wisdom in quantum physics is that at the deepest levels of reality there are no actual
causes for atomic events This idea led to the outlandish belief that quantum objects indeed reality itself aren t real unless
shaped by human measurement Einstein mocked this idea asking whether his bed spread out across his room unless he
looked at it And yet it remains one of the most influential ideas in science and our culture In *Escape from Shadow Physics*
Adam Forrest Kay takes up Einstein s torch reality isn t mysterious or dependent on human measurement but predictable
and independent of us At the heart of his argument is groundbreaking research with little drops of oil These droplets behave
as particles do in the long overlooked quantum theory of pilot waves crucially they showcase quantum behavior while being
described by classical physics And that classical quantum interface points to a true understanding of quantum mechanics and
a reasonable universe A bold and essential reset of the field *Escape from Shadow Physics* describes the kind of true scientific
