The 2Nd Secret Hope Hernandez Small, 2019-11-26 MANIFESTING MEDIUM The information coming through from spirit has evolved since *The Secret* and it is available to you right here, right now. God wants you to learn how to do the Creative Process consciously as it will awaken you. And in the process, you will manifest the promised abundance through the word. In late February 2008, I was divinely guided through the Creative Process. So I decided to do the logical thing and retrace my steps to find out how I'd done it. And ever since, I've been receiving information from my guides in spirit about how to manifest through prayer. I was also given the information that I needed to expand the Biblical 3 Step Creative Process (Ask, Believe, Receive) into the Complete Spiritual 10 Step Creative Process. My Gift to Humanity. The Medical Medium Anthony William says that he can't watch television to relax because he constantly receives medical information about the people on the screen. And when I watch seminars on manifesting, I can't relax because it triggers such a torrent of NEW information that I have to get back to work. Finally, as the Manifesting Medium, I must tell you that this information does not come from a book; it comes directly from spirit, so you won't find it anywhere else. Includes *The Secret Diet*. I was guided to an ORDER FORM to fill out and order *The One from the Universe*.

Self-Help Books Sandra K. Dolby,2010-10-01 Understanding instead of lamenting the popularity of self help books Based on a reading of more than three hundred self help books Sandra K Dolby examines this remarkably popular genre to define self help in a way that s compelling to academics and lay readers alike Self Help Books also offers an interpretation of why these books are so popular arguing that they continue the well established American penchant for self education they articulate problems of daily life and their supposed solutions and that they present their content in a form and style that is accessible rather than arcane Using tools associated with folklore studies Dolby then examines how the genre makes use of stories aphorisms and a worldview that is at once traditional and contemporary The overarching premise of the study is that self help books much like fairy tales take traditional materials especially stories and ideas and recast them into extended essays that people happily read think about try to apply and then set aside when a new embodiment of the genre comes along
