The Sacred Project of American Sociology Christian Smith, 2014-07-03 Counter to popular perceptions contemporary American sociology is and promotes a profoundly sacred project at heart Sociology today is in fact animated by sacred impulses driven by sacred commitments and serves a sacred project Sociology appears on the surface to be a secular scientific enterprise its founding fathers were mostly atheists Its basic operating premises are secular and naturalistic Sociologists today are disproportionately not religious compared to all Americans and often irreligious The Sacred Project of American Sociology shows counter intuitively that the secular enterprise that everyday sociology appears to be pursuing is actually not what is really going on at sociology s deepest level Christian Smith conducts a self reflexive tables turning cultural and institutional sociology of the profession of American sociology itself showing that this allegedly secular discipline ironically expresses Emile Durkheim s inescapable sacred exemplifies its own versions of Marxist false consciousness and generates a spirited reaction against Max Weber s melancholically observed disenchantment of the world American sociology does not escape the analytical net that it casts over the rest of the ordinary world Sociology itself is a part of that very human very social often very sacred and spiritual world And sociology s ironic mis recognition of its own sacred project leads to a variety of arguably self destructive and distorting tendencies This book re asserts a vision for what sociology is most important for in contrast with its current commitments and calls sociologists back to a more honest fair and healthy vision of its purpose

Beckley, Jerome R. Koch, 2002-08-30 As the AIDS crisis spread and gained momentum Protestant Catholic and Jewish clergy in the United States and the United Kingdom became involved in sometimes surprising ways Using quantitative and qualitative data from the early 1990s and from follow up interviews conducted later in the decade the authors show that many clergy became involved in the pastoral care for and counseling of people stigmatized by AIDS including gay and bisexual men despite expressions of antipathy from their denominations Sociological theories concerning clergy roles social movements social space and social capital provide a framework for analyzing the initial findings and the data from subsequent interviews The study concludes that this small but dedicated group of clergy who ministered to the needs of this suffering population were part of a social movement that addressed a community problem despite both obstacles and opposition Using data obtained from structured interviews and responses to questionnaires concerning clergy responses to real and hypothetical situations involving people who are HIV positive or who have AIDS the authors illustrate how clergy and organized religious groups confronted a new and acute fatal illness that was initially

associated with stigmatized behavior They demonstrate that many clergy saw their roles as advocates for these individuals and as providers of pastoral and spiritual care in spite of the rhetoric of conservative and fundamentalist clergy who condemned the victims as an example of the wrath of God against gay and bisexual men The study also shows that even those who were less actively engaged in AIDS pastoral care and counseling demonstrated tolerance for those affected by it Follow up interviews indicate finally that as AIDS became more of a chronic illness the social movement to provide religious and spiritual care and counseling began to wane
