Gu, 2010-08-09 Nowadays students are struggling to learn math and pass exams. They are overwhelmed with information from lengthy textbooks, review books, and many math websites. With limited time, students cannot benefit from all these resources. Our students need only one concise book to help them review and prepare for the Geometry Regents exam. This is the book: No more, No less, Just right. This book is structured in three parts: 1. A Geometry review that will help students remember all the key topics and build their problem-solving skills through the use of examples. 2. A practice section with real Regents questions. 3. Answers and explanations. The topics for the practice questions correspond to the sections in the Geometry review. Students can easily refer back to the matching review sections while they are doing the practice. This review book is geared towards helping students succeed with high scores on the Regents exams.
