are examined along the way include Michel Foucault Johan Galtung John Paul Lederach Edward Herman and Noam Chomsky Manuel Castells and Jurgen Habermas The book argues for a critical realist approach considering critiques of correspondence theories of representation to propose an innovative conceptualisation of journalistic epistemology in which social truths can be identified as the basis for the journalistic remit of factual reporting If the world cannot be accessed as it is then it can be assembled as agreed so long as consensus on important meanings is kept under constant review These propositions are tested by extensive fieldwork in four countries Australia the Philippines South Africa and Mexico
