Applications of Essential Oils in the Food Industry Charles Oluwaseun Adetunji, Javad Sharifi-Rad, 2023-12-02
Applications of Essential Oils in the Food Industry delivers detailed information on the application of essential oils derived from underutilized crops and herbs for the development, preservation and safety of food products. The book covers post-harvest fruits and vegetables and their adjuvant and plasticizers when applied as an edible coating as well as their mechanism of action as preservatives for foods such as fish, meats and yogurts. The book highlights the use of essential oils as anti-microbials, bio-preservatives and antioxidants and also examines their effectiveness against several food-borne pathogens and in enhancing the aroma of food products. Presents the latest research information on essential oils as anti-microbials, bio-preservatives and antioxidants. Describes how essential oils can be used for the management of mycotoxins, especially for the management of toxigenic strains producing higher levels of aflatoxin. Includes information on the utilization of essential oils in beverages, drinks and semi-liquid foods. Demonstrates the synergistic effect of nanotechnology together with essential oils, including information on nano-chemical nano-emulsion and nano-pharmacology.

Governance as a Catalyst for Public Sector Sustainability Baporikar, Neeta, 2023-03-27
Proper implementation and the practice of governance in the public sector improve organizational performance through increased efficiency, productivity, quality and innovation. Ultimately, governance helps organizations make better decisions, streamline processes and reduce re-work whilst also increasing integrity by bringing transparency and greater collaboration among stakeholders. Governance as a Catalyst for Public Sector Sustainability examines the concepts that have powerfully influenced development policy and investigates the role of governance in these institutions and how they have affected current development discourse. Covering topics such as public health, sector sustainability, institutional participatory governance and human resource information systems, this premier reference source is an excellent resource for government officials, policymakers, students and educators of higher education, librarians, researchers and academicians.

MATLAB Ali Saghaforia, 2018-09-19
Conventionally, the simulation of power engineering applications can be a challenge for both undergraduate and postgraduate students. For the easy implementation of several kinds of power structure and control structures of power engineering applications, simulators such as MATLAB, Simulink and coding are necessary, especially for students to develop and test various circuits and controllers in all branches of the field of power engineering. This book presents three different applications of MATLAB in the power system domain. The book includes chapters that show how to simulate and work with MATLAB software for MATLAB professional applications of power systems. Moreover, this book presents techniques to simulate power matters easily using the related toolbox existing in MATLAB Simulink.

Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane, 2018-10-01
Breaking a Rainbow Building a Nation is a first-hand account of the university protests that gripped South Africa between 2015 and 2017, widely better known as the FeesMustFall. Chikane outlines the nature of student politics in the country before, during and after the

emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution Utilisation of South African Research on Higher Education Jan Botha ,Gabriele Vilyte ,2021-10-26

The relationship between research on the one hand and policy practice on the other hand is complicated and collaboration between scholars in research on higher education RHE and institutional research IR practitioners is often lacking This book marks a collaborative effort of a diverse range of South African RHE and IR scholars and asks the overarching questions What do we know about the utilisation of South African research on higher education SARHE and its subset of research known as Institutional Research How and by whom is this research used The book begins by looking at the historical underpinnings of SARHE and delineating the shape and size of this body of research This is followed by a series of case studies on South African Higher Education institutions and governmental bodies investigating how when and by whom are research on higher education and institutional research used in the decision making of these organisations This book is the first of its kind in South Africa and sets out to lay the groundwork for further research into the use uptake and utilisation of RHE and IR in this country *Biostimulants for Crops from Seed Germination to Plant Development* Shubhpriya Gupta,Johannes Van Staden,2021-06-23 Biostimulants for crops from seed germination to plant development focuses on the effects and roles of natural biostimulants in every aspect of plant growth development to reduce the use of harmful chemical fertilizers and pesticides Biostimulants are a group of substances of natural origin that offer a potential to reduce the dependency on harmful chemical fertilizers causing environmental degradation While there is extensive literature on biostimulants there remains a gap in understanding how natural biostimulants work and their practical application This book fills that gap presenting the ways in which biostimulants enhance seed vigor and plant productivity by looking into their mode of action an area still being researched for deeper understanding Exploring the roles of seed germination pollen tube formation pollen pistil interaction flower and fruit setting to plant pigments rhizospheric and soil microorganisms the book also sheds light on the challenges and realistic opportunities for the use of natural biostimulants Approaches biostimulant research with the goal of transforming scientific research into practical application Includes real world examples from laboratory greenhouse and field experiments Presents the biochemical physiological and molecular mode of action of biostimulants **Executive Engagement Strategies** Bev Burgess,2020-03-03 Win the attention of high level decision makers in large corporations spark their interest and earn their trust to achieve long term sustainable mutual value When it comes to buying and selling complex high value products and services people buy from people Big businesses and public sector organizations rely on solutions to keep their essential
