analyse applicable rules and policy in these jurisdictions It also takes a comparative approach to identify common threads and differences Reforming Antitrust Alan J. Devlin, 2021-08-19 Industrial consolidation digital platforms and changing political views have spurred debate about the interplay between public and private power in the United States and have created a bipartisan appetite for potential antitrust reform that would mark the most profound shift in US competition policy in the past half century While neo Brandeisians call for a reawakening of antitrust in the form of a return to structuralism and a concomitant rejection of economic analysis founded on competitive effects proponents of the status quo look on this state of affairs with alarm Scrutinizing the latest evidence Alan J Devlin finds a middle ground US antitrust laws warrant revision he argues but with far more nuance than current debates suggest He offers a new vision of antitrust reform achieved by refining our enforcement policies and jettisoning an unwarranted obsession with minimizing errors of economic analysis

United States v. Apple Chris Sagers, 2019-09-17 In 2012 when the Justice Department sued Apple and five book publishers for price fixing many observers sided with the defendants It was a reminder that in practice Americans are ambivalent about competition Chris Sagers shows why protecting price competition even when it hurts some of us is crucial if antitrust law is to preserve markets Federal Statutory Exemptions from Antitrust Law, 2007 **Le contrôle des concentrations d'entreprises** Valentin Botteron, 2021-05-01 Le test du contr le des concentrations d entreprises est en pleine remise en question en Suisse Bon nombre de commentateurs se prononcent en faveur de la transposition dans la Loi sur les cartels LCart du droit euro p en en la mati re et de son test SIEC pour Significant Impediment to Effective Competition Cette tude envisage d abord l opportunit d un changement l gislatif ainsi que le choix d un ventuel nouveau test Puis dans un examen de la pratique de la Comco de 1997 2019 en mati re de contr le des concentrations la th se pr sente le test suisse tape par tape et son application sous forme de statistiques L auteur confronte ensuite le test suisse au test SLC am ricain et au test SIEC europ en l aide de tableaux didactiques et formule enfin une proposition l gislative Behavioral Law and Economics Eyal Zamir, Doron Teichman, 2018 In the past few decades economic analysis of law has been challenged by a growing body of experimental and empirical studies that attest to prevalent and systematic deviations from the assumptions of economic rationality While the findings on bounded rationality and heuristics and biases were initially perceived as antithetical to standard economic and legal economic analysis over time they have been largely integrated into mainstream economic analysis including economic analysis of law Moreover the impact of behavioral insights has long since transcended purely economic analysis of law in recent years the behavioral movement has become one of the most influential developments in legal scholarship in general Behavioral Law and Economics offers a state of the art overview of the field Eyal Zamir and Doron Teichman survey the entire body of psychological research that lies at the basis of behavioral analysis of law and critically evaluate the core methodological questions of this area of research Following this the book discusses the fundamental normative questions stemming from the psychological findings on bounded rationality and explores their

implications for setting the law's goals and designing the means to attain them. The book then provides a systematic and critical examination of the contributions of behavioral studies to all major fields of law including property, contracts, consumer protection, torts, corporate securities, regulation, antitrust, administrative, constitutional, international, criminal, and evidence law, as well as to the behavior of key players in the legal arena: litigants and judicial decision makers.
