PS 170X Custom 4th Grade Expeditionary Learning Collection Steps To Literacy Staff, 2014-02-01 *English Language Arts, Grade 6 Module 2* PCG Education, 2015-12-14 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country. Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences, the standards require Paths to College and Career includes daily lesson plans, guiding questions, recommended texts, scaffolding strategies, and other classroom resources. Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts. At each grade level, Paths to College and Career delivers a yearlong curriculum that develops all students' ability to read closely and engage in text-based discussions, build evidence-based claims and arguments, conduct research, and write from sources, and expand their academic vocabulary. Paths to College and Career's instructional resources address the needs of all learners, including students with disabilities, English language learners, and gifted and talented students. This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible, a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction, and Student Journals that give students learning tools for each module and a single place to organize and document their learning. As the creators of the Paths ELA curriculum for grades 6-12, PCG Education provides a professional learning program that ensures the success of the curriculum. The program includes Nationally recognized professional development from an organization that has been immersed in the new standards since their inception, Blended learning experiences for teachers and leaders that enrich and extend the learning, A train-the-trainer program that builds capacity and provides resources and individual support for embedded leaders and coaches. Paths offers schools and districts a unique approach to ensuring college and career readiness for all students, providing state-of-the-art curriculum and state-of-the-art implementation. Teaching in Themes Deborah Meier, Matthew Knoester, Katherine Clunis D'Andrea, 2015. How do teachers and schools create meaningful learning experiences for students with diverse skills, abilities, and cultures? How can teachers authentically assess the learning of their students and build on their strengths and interests in ways that enrich the larger community? How can schools be turned into places where everyone is learning from each other? These are the big questions that guide the work of teachers at the well-known Mission Hill School in Boston, and that are addressed in this book. *Teaching in Themes* will help schools incorporate a whole-school theme-based curriculum that engages students across grade levels K-8. The authors provide detailed descriptions of four thematic units: What's Baking? Learning Together About Bread and Bakeries; The Impact of Nature and Play; The Struggle for Justice: U.S. History Through the Eyes of African Americans; and Astronomical Inquiries. Readers will see how teachers and students design emergent inquiries within the themes and create artwork, music, presentations, and a variety of hands-on learning experiences that support differentiated instruction across the curriculum. Book Features: Examples of whole-school projects designed to create a deep sense of immersion in a curricular theme and to build a multi-age learning community; Details of how teachers developed rich curriculum tailored to their unique students; The insights of

legendary educator Deborah Meier on how whole school thematic units were used to encourage collaboration among teachers An afterword by teachers and film makers about the thinking behind their work featured in the widely viewed film series *A Year at Mission Hill* The schools Deborah Meier created in New York and Boston are outstanding examples of democratic education in action I will never forget the first time I visited one of Deborah s schools in East Harlem and saw the joy and curiosity on the faces of children and teachers alike I took time then to carefully describe the school s practices including its portfolio based assessment system because I believed the word needed to be spread I still do Happily this new book from Deborah and her colleagues at the Mission Hill School adds to the literature on creative and collaborative teaching and on building trusting and powerful learning communities Linda Darling Hammond Charles E Ducommun Professor of Education Stanford University Here is a book that shatters the prevailing definition of a good school as one with high test scores Teaching in Themes makes clear the often hidden fact that there are many kinds of good schools for children adults and a democratic society past and present Experienced teachers tell a fascinating story about Boston s Mission Hill School its goals curriculum classroom lessons and assessments that will knock the socks off many true believers in only one kind of a good school Larry Cuban Professor Emeritus of Education Stanford University Real student engagement is not the result of entertaining instruction it is borne from students being passionate about their own learning about becoming young experts This book gives a behind the scenes look at Mission Hill a remarkably successful public school where the quality of student thinking and student work takes precedence over test scores and where thematic learning builds powerful intellectual bridges within classrooms and across the school Ron Berger chief academic officer Expeditionary Learning *English Language Arts, Grade 8 Module 3* PCG Education, 2015-12-14 Paths to College and Career Jossey Bass and PCG Education are proud to bring the Paths to College and Career English Language Arts ELA curriculum and professional development resources for grades 6-12 to educators across the country Originally developed for EngageNY and written with a focus on the shifts in instructional practice and student experiences the standards require Paths to College and Career includes daily lesson plans guiding questions recommended texts scaffolding strategies and other classroom resources Paths to College and Career is a concrete and practical ELA instructional program that engages students with compelling and complex texts At each grade level Paths to College and Career delivers a yearlong curriculum that develops all students ability to read closely and engage in text based discussions build evidence based claims and arguments conduct research and write from sources and expand their academic vocabulary Paths to College and Career s instructional resources address the needs of all learners including students with disabilities English language learners and gifted and talented students This enhanced curriculum provides teachers with freshly designed Teacher Guides that make the curriculum more accessible and flexible a Teacher Resource Book for each module that includes all of the materials educators need to manage instruction and Student Journals that give students learning tools for each module and a single place to organize and document their learning As the creators
