REDUCED SCHEDULED MAINTENANCE REQUIREMENTS As part of a continuing program, scheduled maintenance requirements for the new Futura have been revised substantially by comparison with the 1979 Ford Mustang. For example, with the 1979 Futura, the recommended maintenance schedule is 10 months or 10,000 miles (11,000 miles with V-8 engine) between scheduled oil changes and 30,000 miles between lubes. There are just two other parts in the comprehensive program which, as before, can lower the cost of scheduled maintenance by an estimated 10% to 15% or \$10,000 miles on the 1979 Futura equipped with 3.0 liter (200 CID) 6-cylinder engine and automatic transmission, as compared with the '79 Mustang equipped with similar engine and transmission. Computations are based on Ford's Labor Time Standards, a \$14.50 hourly labor rate, and manufacturer's suggested retail parts prices effective August 31, 1977.

CAUTION WITH THESE COSTS. Our costs and yours are based on example Silver Mustang (3000 CC). Your Ford Dealer will be pleased to show you color samples.

OPTIONAL AVAILABILITY. Some features presented are optional at extra cost. Some options are restricted in combination with other options. Availability of some models and features described may be subject to a slight delay. See your Ford Dealer for the latest information on options, prices and availability.

PRODUCT CHANGES. Ford reserves the right to change specifications any time without incurring obligations.
