Forests Robert Pogue Harrison, 2024-05-31 In this wide ranging exploration of the role of forests in Western thought Robert Pogue Harrison enriches our understanding not only of the forest's place in the cultural imagination of the West but also of the ecological dilemmas that now confront us so urgently Consistently insightful and beautifully written this work is especially compelling at a time when the forest as a source of wonder respect and meaning disappears daily from the earth *Forests* is one of the most remarkable essays on the human place in nature I have ever read and belongs on the small shelf that includes Raymond Williams masterpiece *The Country and the City* Elegantly conceived beautifully written and powerfully argued *Forests* is a model of scholarship at its passionate best No one who cares about cultural history about the human place in nature or about the future of our earthly home should miss it William Cronon Yale Review *Forests* is among other things a work of scholarship and one of immense value one that we have needed It can be read and reread added to and commented on for some time to come John Haines The New York Times Book Review

The Environmental Imagination Lawrence Buell, 1995 With Thoreau's *Walden* as a touchstone Buell offers an account of environmental perception the place of nature in the history of Western thought and the consequences for literary scholarship of attempting to imagine a more ecocentric way of being In doing so he provides a profound rethinking of our literary and cultural reflections on nature

India's Forests, Real and Imagined Alan Johnson, 2022-12-29 As they seek to explore evolving and conflicting ideas of nationhood and modernity India's writers have often chosen forests as the dramatic setting for stories of national identity India's *Forests Real and Imagined* explores how these settings have been integral to India's sense of national consciousness Alan Johnson demonstrates that modern writers have drawn on older Indian literary traditions of the forest as a place of exile trial and danger to shape new ideas of India as a modern nation The book casts new light on a wide range of modern writers from Bankim Chandra Chattopadhyay widely regarded as the first Indian novelist to

contemporary authors such as Amitav Ghosh Arundhati Roy and Salman Rushdie as well as local attitudes to nationhood and the environment across the country

We are Forests Jean-Baptiste Vidalou, 2023-06-06 From the Sivens forest in France to the Hambach forest in Germany from the Broadback forest in Canada to the rainforests of Borneo something has shifted in these wild spaces over the last decade or two People have begun to inhabit the forests oppose the loggers and use their bodies as shields motivated by the determination to resist the lethal ecosystem of commercial exploitation Forests have become a battleground in the struggle between groups with fundamentally divergent aims and objectives Forests are made up of insurgents Jean Baptiste Vidalou went to see some of these forests and meet those who are defending them he discovered a completely different way of understanding the world sharply opposed to the mentality of planners who see forests as just one more territory to be managed Here he recounts this encounter relays what these forest peoples and struggles convey not to offer any recipes or ready made solutions to the crises of our times but to be the forest like a force that grows stem by stem leaf by leaf slowly becoming ungovernable

For the Wild Sarah M. Pike, 2017-10-03 For the Wild explores the ways in which the commitments of radical environmental and animal rights activists develop through powerful experiences with the more than human world during childhood and young adulthood The book addresses the question of how and why activists come to value nonhuman animals and the natural world as worthy of protection Emotions and memories of wonder love compassion anger and grief shape activists protest practices and help us understand their deep rooted dedication to the planet and its creatures Drawing on analyses of activist art music and writings as well as interviews and participant observation in activist communities Sarah M Pike delves into the sacred duties of these often misunderstood and marginalized groups with openness and sensitivity

Harlan-Haughey,2016-03-31 Arguing that outlaw narratives become particularly popular and poignant at moments of national ecological and political crisis Sarah Harlan Haughey examines the figure of the outlaw in Anglo Saxon poetry and Old English exile lyrics such as *Beowulf* works dealing with the life and actions of Hereward the Anglo Norman romance of Fulk Fitz Waryn the Robin Hood ballads and the *Tale of Gamelyn* Although the outlaw s wilderness shelter changed dramatically from the menacing fens and forests of Anglo Saxon England to the bright known and mapped greenwood of the late outlaw romances and ballads Harlan Haughey observes that the outlaw remained strongly animalistic other and liminal His brutality points to a deep literary ambivalence towards wilderness and the animal at the same time that figures such as the Anglo Saxon resistance fighter Hereward the brutal yet courtly Gamelyn and Robin Hood often represent a lost England imagined as pristine and forested In analyzing outlaw literature as a form of nature writing Harlan Haughey suggests that it often reveals more about medieval anxieties respecting humanity s place in nature than it does about the political realities of the period

why is a neutralisation reaction exothermic example socratic - Sep 22 2022

web sep 20 2014 i will illustrate this with some examples when an acid is neutralised by an alkali the reaction is exothermic
eg 1 HCl(aq) + NaOH(aq) → NaCl(aq) + H₂O(l) for which ΔH = 57 kJ mol⁻¹ eg 2 HNO₃(aq) + KOH(aq) → KNO₃(aq) + H₂O(l) for which ΔH = 57 kJ mol⁻¹

web the enthalpy change of neutralisation is defined as the enthalpy change when solutions of an acid and alkali react
together to produce one mole of water for example HCl(aq) + NaOH(aq) → NaCl(aq) + H₂O(aq) you can see that one mole of water is
produced when one mole of HCl or one mole of NaOH reacts
