Financial Management for Episcopal Parishes James B. Jordan, 2017-07-01 Designed to help parishes of all sizes establish good financial management processes and policies. Experience shows that open and transparent churches engender a greater feeling of trust and willingness on the part of the donor. The policies and processes in Financial Management for Episcopal Parishes, which can be implemented by any size church, allow clergy, vestry and parishioners to establish and document procedures that enable a financially transparent organization. The book defines the roles of the clergy, staff, vestry and congregation and outlines what needs to be done by them to design and implement a system of checks and balances for financial oversight and stewardship in order to protect donations and assets. Throughout the book, real life examples of processes and procedures that did not work and why make for enjoyable reading of an otherwise business like subject. Every reader will recognize some of them in their own church life.
