Standard Operating Procedures (SOPs)

1st March 2012

This document provides an overview of the Inter-Agency transport and logistics services as well as coordination mechanisms established by the Logistics Cluster (under WFP leadership) to support all humanitarian cargo consigned within South Sudan, in support of the humanitarian community's response to the earthquake.

The objective of the Logistics Cluster is to provide - in an efficient, coordinated manner - assets, facilities, services and staff, to ensure an uninterrupted supply chain of life saving relief items to the affected populations.

These services are not intended to replace the logistics capacities of the agencies or organisations but rather supplement through the provision of common services.

These services will be offered for a limited period of time, in part or in full, for the following reasons:

- Changes in the situation on the ground
- No longer a perceived need for prioritisation, facilitation or/and coordination
- Funding constraints

This document will be regularly updated as the situation evolves, and operational requirements develop.

Please check for updates at: www.logcluster.org/ops/sot11a

- These logistics services are only for humanitarian cargo destined for South Sudan
- Cargo despatch planning is based on the priorities set by the Humanitarian Coordinator
