Elections in Museveni's Uganda Sam Wilkins, Richard Vokes, 2018-12-07 Uganda's 2016 elections which returned thirty year incumbent President Yoweri Museveni and his National Resistance Movement NRM in yet another landslide took place in an atmosphere of patronage coercion and fraud But is this diagnosis sufficient to understand the processes of voting and regime maintenance in Uganda today Based on a series of detailed case studies from across Uganda this book provides a more nuanced and complex picture of what the Museveni regime is and how it keeps winning elections Whilst not denying that various electoral malpractices are systemic to the regime's survival the authors find that these cannot be extricated from Uganda's history its wider social realities and its local political cultures in which the NRM has become so embedded In so doing the authors who include anthropologists development specialists historians geographers and political scientists develop new ways of thinking about the meaning of voting and elections in non democratic Uganda and elsewhere This edition was originally published as a special issue of the Journal of Eastern African Studies

America in the Age of Trump Douglas E. Schoen, Jessica Tarlov, 2018-10-23 *America in the Age of Trump* is a bracing essential look at the failure of a great nation to meet the needs of its people and the challenges of the age and the resulting collapse of public trust in government as well as a pervasive crisis of national values from broken families to a loss of faith in the American idea itself This crisis of values occurs just as the country faces an unprecedented array of fiscal economic social and national security challenges out of control federal spending frighteningly large deficits massive gaps of income and opportunity cultural division and a dangerous world in which American power seems increasingly incidental In *America in the Age of Trump* Douglas E Schoen and Jessica Tarlov offer a definitive and unique assessment of a nation in turmoil looking beneath well known problems to identify underlying yet poorly understood causes Readers will confront the crises one by one of trust values and governance of education economic opportunity and fiscal solvency of national security domestic tranquility and race relations *America in the Age of Trump* gathers in one place a clear and comprehensive evaluation of the fundamental issues confronting the American future while offering bold fresh approaches to meeting these challenges Other books have described the specter of American decline but none has been so comprehensive in its diagnosis or forward looking and non ideological in its remedies explaining how we might yet overcome national self doubt to reclaim our traditional optimism reassert our place in the world and secure a prosperous future for our citizens
